Government by a Minister and department with Whitehall wide influence They must be capable of holding all departments to account for their sustainable development performance The Committee does not think Defra is best placed to lead this drive and recommends that the Cabinet Office assume this role And the Treasury could use its position to continue to develop sustainability reporting by departments strengthen the system of impact assessments and the Green Book investment appraisal methodology for policy making and embed the results of the Government Economic Service review of the economics of sustainability and environmental valuation into those impact assessments and appraisals Greater political leadership from the top should be brought to bear The Government must introduce a full set of indicators to measure sustainable development that can be used to develop policy and must provide a new strategic underpinning for its commitment to sustainable development as an overarching goal of Government policy making
