The Herbal Medicine-Maker's Handbook James Green, 2011-03-09 THE HERBAL MEDICINE MAKER'S HANDBOOK is an entertaining compilation of natural home remedies written by one of the great herbalists James Green author of the best selling THE MALE HERBAL Writing in a delightfully personal and down home style Green emphasizes the point that herbal medicine making is fundamental to every culture on the planet and is accessible to everyone So first head into the garden and learn to harvest your own herbs and then head into your kitchen and whip up a batch of raspberry cough syrup or perhaps a soothing elixir to erase the daily stresses of modern life [An Enquiry into the Principles of Representation: a reprint of several letters and leading articles from the Argus Newspaper. With an introduction by E. Wilson](#) Edward WILSON (Publisher, of Melbourne.), 1857 **The Problem of Universals in Early Modern Philosophy** Stefano Di Bella, Tad M. Schmaltz, 2017 This is a collection of essays from an international group of scholars that explore the ways in which the ancient problem of universals was transformed in modern philosophy Essays consider the various forms of

Platonism conceptualism and nominalism in the writings of a broad range of modern thinkers The Development and Principles of International Humanitarian Law Michael N. Schmitt, 2017-07-05 The essays selected for the first part of this volume offer an insight into the development as distinguished from the history of international humanitarian law The focus of the majority of the works reprinted here is on an analysis of the adequacy of the law as it stood at the time of the respective publication and in the light of existing contemporary armed conflicts and military operations Thus the reader is afforded an in depth look at the early roots of international humanitarian law the continuing relevance of that body of law despite advances in weapons technology and the efforts to progressively develop it International humanitarian law's development cannot be considered in isolation from its principles The essays selected for the second part of the volume deal with the two fundamental principles underlying all of international humanitarian law humanity and military necessity The articles on the principles of humanity include reflections on the famous Martens Clause and the analyses of military necessity take no account of *Kriegsraison* Moreover they offer proof of the customary character of the principle of distinction in land air and naval warfare *Enterprise Information Systems* Joaquim Filipe, Michał Śmiałek, Alexander Brodsky, Slimane Hammoudi, 2021-04-30 This book constitutes extended revised and selected papers from the 22nd International Conference on Enterprise Information Systems ICEIS 2020 held online during May 5-7 2020 The 41 papers presented in this volume were carefully reviewed and selected for inclusion in this book from a total of 255 submissions They were organized in topical sections as follows database and information systems integration artificial intelligence and decision support systems information systems analysis and specification software agents and internet computing human computer interaction and enterprise architecture **Trees & Shrubs of the Trans-Pecos and Adjacent Areas** A. examination of how actors analogies and narratives are produced and deployed into strategy debates the reasons for counterinsurgency s emergence in crisis periods can be determined This approach enables a better understanding of the dynamics of policy making and how geostrategic change occurs Phonological Studies Roman Jakobson,2012-01-02 No detailed description available for Phonological Studies The Bradley Bibliography: Dendrology. 1911-12 Alfred Rehder,1914 **Personnel Information Bulletin** United States. forms as well as its key subjects and concerns and some of its most important actors Early Modern Merchants and their Books in this way challenges long held assumptions about knowledge making in the seventeenth century and pushes back against equally persistent beliefs about merchants in the period As such it not only offers a revisionist history of the early modern merchantry and a major new account of learning in the seventeenth century but also constitutes a significant methodological intervention in book history itself
