

Research Paper

The purpose of your research is to provide the reader with **background information** about your problem.

- This portion needs to be **typed** with **12 point**, legible, font and should be double-spaced.
- You must have at least **three** different sources for your research. Only one source may be an encyclopedia. These sources will be **cited** in your bibliography.
- The title of this page is your problem statement/question

Paragraph 1. Introductory Paragraph

- The first paragraph should begin with an interesting fact, an intriguing statistic, or a relevant quote related to your topic.
- Explain why your problem is important
- Introduce what you plan to cover in your paper.

Body of research. (2 paragraphs)

- Should focus on the topics connected to your problem.
- Should provide the reader with the necessary information to fully understand the problem you plan to investigate

Final Paragraph. Conclusion

- Summarize the information you presented in the body.
- **Your hypothesis** should be introduced here. – A **hypothesis** is an educated guess about the possible solution to your problem. This is a single sentence beginning with the words "I think" and contain an "if-then" statement.
- End the concluding paragraph with a brief (1-2 sentences) description of the experiment you plan to conduct.

Before you Begin:

- You must gather pertinent information for your report. We will work in library a couple days.
- As you examine each source, make a separate note of each fact or quotation you might want to use in your paper. This must be done on index cards.
- Each index card must include the source of the information (author's name and page number and date of publication)
- Try to summarize the information in your own words (paraphrasing)
- Use quotation marks if you copy the information exactly. (even if you just copy a phrase)
- These sources will also be used for your Bibliography page.
