

Bullying Research Paper

No matter who you are in the world, at some point in your life you'll experience some form of bullying. Whether it is in school or online, bullying is a serious issue and has significantly impacted many individuals and how they live their daily lives. This issue hits close to home because I've been bullied for as long as I can remember. I even conducted my own experiment on Facebook by posting a picture of my friends and I at the beach in our bathing suits on a page called, "The World's Cutest Teens". I knew that the picture would get some rude comments so I waited, and that's exactly what happened.

People began to call us rude names and basically told us that we were disgusting. I took a picture of all the rude comments and the picture of us and made a collage, I then reposted it on the page saying that I would use the information I found in my research paper. I said that it doesn't matter who you are in the world, bullying still happens today and it needs to be addressed, that picture now has over 20,000 "likes" on Facebook and I'm receiving tons of messages from people saying how smart I am to have come up with this idea.

Now although I didn't take the rude comments to heart, there are still many people in the world that do. It hurts them and ruins their self esteem. Bullying is a human rights violation. It is the abuse of the powerless by those who think they have all of the power. Bullying is the first human rights violation millions of students in the United States will confront. As a human rights organization, STTP [Speak Truth To Power] stated in a recent interview that they can't simply ignore the fact that children aren't able to get the proper education that they deserve because of bullies.

They have to do their best to put a stop to as much bullying as possible. Two children in every classroom in America are estimated to miss at least one day of school each month because they feel unsafe. Local governments realize we cannot afford to dismiss youth violence as simply "kids being kids. " Anti-bullying legislation has been passed in 49 states, the District of Columbia and Puerto Rico. But laws and reporting systems aren't enough. We must move beyond simply having the systems in place to react to bullying.

We must instill in our youth the ideals of civility and respect, and we must create environments that prevent bullying everywhere our children live, learn and play. ("Schools Have Work to Do") However, bullying doesn't just exist in school, bullying can happen anywhere at any time and people need to know what they can do to help prevent and stop the bullies from attacking. First, you want to make sure that the person being bullied informs someone that the bullying is occurring by telling a trusted adult.

Then, if you haven't already, confront the bully by telling them how what they're doing to you is really upsetting and you would like it if they could please stop. If the bullying still
