Lives Lived, Lives Imagined Sabrina Reed, 2022-11-04 Perceptive controversial topical and achingly funny Miriam Toews's books have earned her a place at the forefront of Canadian literature In this first monograph on Toews's work Sabrina Reed examines the interplay of trauma and resilience in the author's fiction Reed skillfully demonstrates how Toews situates resilience across key themes including the home as both a source of trauma and an inspiration for resilient action the road trip as a search for resolution and redemption and the reframing of the Mennonite diaspora as an escape from patriarchal oppression The deaths by suicide of Toews's father and sister stand out as the most shocking and tragic of the author's biographical details and Reed explores Toews's use of autofiction as a reparative gesture in the face of this trauma Written in an accessible style that will appeal to both scholars and devotees of Toews's work *Lives Lived, Lives Imagined* is a timely examination of Toews's oeuvre and a celebration of fiction's ability to simultaneously embody compassion and anger joy and sadness and to brave the personal and communal oppressions of politics religion family society and mental illness

The Unseen Hatred Pasquale De Marco, 2025-08-15 In the annals of true crime few cases have captivated and horrified the public like that of the Papin sisters Their story is a twisted tale of class gender and violence that continues to fascinate and disturb to this day This book delves into the depths of this notorious crime exploring the lives of the Papin sisters the events leading up to the murders and the aftermath of their horrific act The Papin sisters Christine and L a were born into poverty in France in the early 20th century They grew up in a dysfunctional family marked by violence and abuse As they grew older the sisters found work as domestic servants for a wealthy family in Le Mans The household was a microcosm of the class and gender inequalities that were rampant in French society at the time The sisters were subjected to long hours low pay and constant humiliation by their

mistresses As the pressures of their situation mounted the Papin sisters began to exhibit signs of mental instability They became increasingly withdrawn and isolated and their behavior became increasingly erratic In February 1933 their simmering resentment and anger boiled over into a violent eruption The sisters brutally murdered their mistresses Madame Lancelin and her daughter Geneviève in a frenzied attack The trial of the Papin sisters was a media circus The public was eager for blood and the sisters were quickly convicted and sentenced to death However their sentences were later commuted to life in prison The sisters spent the rest of their lives behind bars dying in prison in 1937 and 1942 respectively This book explores the Papin sisters story in depth examining the social psychological and historical factors that contributed to their crime It also considers the legacy of the Papin sisters and the lessons we can learn from their tragic tale This book is a must read for anyone interested in true crime social history or the psychology of violence If you like this book write a review

Refuge and Resilience Laura Simich, Lisa Andermann, 2014-06-05 Taking an interdisciplinary approach and focusing on the social and psychological resources that promote resilience among forced migrants this book presents theory and evidence about what keeps refugees healthy during resettlement The book draws on contributions from cultural psychiatry anthropology ethics nursing psychiatric epidemiology sociology and social work Concern about immigrant mental health and social integration in resettlement countries has given rise to public debates that challenge scientists and policy makers to assemble facts and solutions to perceived problems Since the 1980s refugee mental health research has been productive but arguably overly focused on mental disorders and problems rather than solutions Social science perspectives are not well integrated with medical science and treatment which is at odds with social reality and underlies inadequacy and fragmentation in policy and service delivery Research and practice that contribute to positive refugee mental health from Canada and the U S show that refugee mental health promotion must take into account social and policy contexts of immigration and health care in addition to medical issues Despite traumatic experiences most refugees are not mentally ill in a clinical sense and those who do need medical attention often do not receive appropriate care As recent studies show social and cultural determinants of

health may play a larger role in refugee health and adaptation outcomes than do biological factors or pre migration experiences This book s goal therefore is to broaden the refugee mental health field with social and cultural perspectives on resilience and mental health
