Students and Teachers of the New China Madelyn Holmes,2014-11-01 In this collection of interviews with students and teachers in Hangzhou China the reader meets a student at Zhejiang university majoring in English and studying Japanese and Italian a teacher who spent his childhood as a little Red Guard of the Cultural Revolution and went on to study in England a young girl who dreams of princesses and romance and another who wants to be a backpacker when she grows up and more Ranging in age from 7 to 52 the thirteen interviewees represent a cross section of Chinese culture and experience with various levels of social status education and economic standing Their words supplemented by the author's detailed descriptions of their surroundings and daily activities offer a fresh perspective on life in present day China Spirit in the Dark Josef Sorett,2016-08-01 Most of the major black literary and cultural movements of the twentieth century have been understood and interpreted as secular secularizing and at times profane In this book Josef Sorett demonstrates that religion

was actually a formidable force within these movements animating and organizing African American literary visions throughout the years between the New Negro Renaissance of the 1920s and the Black Arts movement of the 1960s Sorett unveils the contours of a literary history that remained preoccupied with religion even as it was typically understood by authors readers and critics alike to be modern and therefore secular Spirit in the Dark offers an account of the ways in which religion especially Afro Protestantism remained pivotal to the ideas and aspirations of African American literature across much of the twentieth century From the dawn of the New Negro Renaissance until the ascendance of the Black Arts movement black writers developed a spiritual grammar for discussing race and art by drawing on terms such as church and spirit that were part of the landscape and lexicon of American religious history Sorett demonstrates that religion and spirituality have been key categories for identifying and interpreting what was or was not perceived to constitute or contribute to black literature and culture By examining figures and movements that have typically been cast as secular he offers theoretical insights that trouble the boundaries of what counts as sacred in scholarship on African American religion and culture Ultimately Spirit in the Dark reveals religion to be an essential ingredient albeit one that was always questioned and contested in the forging of an African American literary tradition

Implied Nowhere Shelley Ingram, Willow G.

Mullins, Todd Richardson, 2019-04-24 In Implied Nowhere Absence in Folklore Studies authors Shelley Ingram Willow G

Mullins and Todd Richardson talk about things folklorists don't usually talk about They ponder the tacit aspects of folklore and folklore studies looking into the unarticulated expectations placed upon people whenever they talk about folklore and how those expectations necessarily affect the folklore they are talking about The book's chapters are wide ranging in subject and style yet they all orbit the idea that much of folklore both as a phenomenon and as a field hinges upon unspoken or absent assumptions about who people are and what people do The authors articulate theories and methodologies for making sense of these unexpressed absences and in the process they offer critical new insights into discussions of race authenticity community literature popular culture and scholarly authority Taken as a whole the book represents a new and challenging way of looking again at the ways groups come together to make meaning In addition to the main chapters the book also includes eight interstitials shorter studies that consider underappreciated aspects of folklore These discussions which range from a consideration of knitting in public to the ways that invisibility shapes an internet meme are presented as questions rather than answers encouraging readers to think about what more folklore and folklore studies might discover if only practitioners chose to look at their subjects from angles more cognizant of these unspoken gaps

The Ideological Origins of African American Literature Phillip M. Richards, 2025-06-27 Inquiry into African American literature in recent decades has neglected to probe the intellectual structure of the tradition s aesthetics and its underlying ideology In *The Ideological Origins of African American Literature* Phillip M Richards begins this reconstructive work illuminating the dialectical backstory of black prose and poetry in America Richards argues that the social and political forces that influenced white literature were uniquely reacted to absorbed and often times rejected by African American literary figures from the eighteenth century Puritan notions of a God centered history to the onset of Romanticism and Modernism in the nineteenth and twentieth centuries Building his case for ideological continuity Richards surveys a profoundly creative period of 125 years launched by an African American reaction against a racist mid eighteenth century American culture This epoch in

African American literature saw a fusion of Puritan Protestant culture into a religious and secular worldview drawing in the poetry of Phillis Wheatley antebellum slave narratives Richard Allen and the periodicals of the ambitious African Methodist Episcopal movement all of which would form the underlying foundation of a Black Victorian culture A rising black middle class Richards argues would later be secularized by an eroding religious tradition under the pressures of nineteenth century modernity the trauma of Jim Crow and the emerging northern ghetto Richards further traces the emergence of Romanticism which appeared with white American authors such as Emerson Thoreau and Whitman but would not take shape in African American literature until the likes of W E B Du Bois and Langston Hughes took stock of Anglo European culture at the end of the nineteenth century The Ideological Origins of African American Literature illustrates a pattern of black writing that eschews the hegemonic white culture of the day for an evolving black culture that would define an American literary landscape
