Vocational Careers Sourcebook Kathleen M. Savage, Karen Hill, 1992 Provides information on the salary and employment outlook for 135 careers which do not require a college degree      Holding Bureaucrats Accountable Lana Stein, 1991 Lana Stein looks at the taxing question of how to make bureaucracies responsible to elected officials Stein carefully scrutinizes St Louis bureaucracy distinguishing those agencies that are responsive to elected officials from those that are not On the responsive side for example she cites the Traffic Division of the Department of Streets which has erected about 1 000 four way stop signs compared to 34 in Kansas City because the aldermen responding to parents concerned about the safety of their street crossing kids demanded them Similarly she finds that building inspectors are responsive to aldermen s requests that individual buildings receive priority attention To tenants worried about unsafe living conditions that s an important and meaningful gesture      *Using Test Data in Clinical Practice* Kathryn C MacCluskie, Elizabeth Reynolds Welfel, Sarah M. Toman, 2002 Material presented in many testing textbooks is appropriately broad and comprehensive but the effect for students new to testing is difficulty in then translating the extensive information into the practical skills of administering scoring and interpreting tests to help inform the treatment process Few resources exist to help students and mental health clinicians with the daunting task of learning how to synthesize test data from numerous instruments into a meaningful treatment plan and strategy for a client This book was written to address that need It provides readers with clear and detailed step by step procedures for using the WAIS III MMPI 2 MMPI A Kuder Occupational Interest Survey and the Strong Interest Inventory It features case examples and practice opportunities in test usage detailed discussion of approaches to client feedback and report writing and a review of ethical and legal considerations in using tests in clinical settings It takes readers through a systematic explanation of how to understand and integrate data from multiple sources to maximize the information gleaned from the tests It also emphasizes using test data to maximize helpfulness to the client and how to interpret test data to clients in language that is understandable      **SWAP, Sharing with a Purpose** Pennsylvania State Civil Service Commission.
