**Philosophy of African American Studies** Stephen Ferguson, 2015-09-16 In this ground breaking book Stephen C Ferguson addresses a seminal question that is too often ignored What should be the philosophical basis for African American studies The volume explores philosophical issues and problems in their relationship to Black studies Ferguson shows that philosophy is not a sterile intellectual pursuit but a critical tool to gathering knowledge about the Black experience Cultural idealism in various forms has become enormously influential as a framework for Black studies Ferguson takes on the task of demonstrating how a Marxist philosophical perspective offers a productive and fruitful way of overcoming the limitations of idealism Focusing on the hugely popular Afrocentric school of thought this book's engaging discussion shows that the foundational arguments of cultural idealism are based on a series of analytical and historical misapprehensions In turn Ferguson argues for the centrality of the Black working class both men and women to Black Studies

and Meaning Cedric J. Robinson, 2012-09-01 Cedric J Robinson offers a new understanding of race in America through his analysis of theater and film of the early twentieth century He argues that economic political and cultural forces present in the eras of silent film and the early talkies firmly entrenched limited representations of African Americans Robinson grounds his study in contexts that illuminate the parallel growth of racial beliefs and capitalism beginning with Shakespearean England and the development of international trade He demonstrates how the needs of American commerce determined the construction of successive racial regimes that were publicized in the theater and in motion pictures particularly through plantation and jungle films In addition to providing new depth and complexity to the history of black representation Robinson examines black resistance to these practices Whereas D W Griffith appropriated black minstrelsy and romanticized a national myth of origins Robinson argues that Oscar Micheaux transcended uplift films to create explicitly political critiques of the American national myth Robinson's analysis marks a new way of approaching the intellectual political and media racism present in the beginnings of American narrative cinema
