

## SAMPLE OF A STRONG LETTER OF RECOMMENDATION FOR ERAS

<PLACE LETTER ON INSTITUTIONAL LETTERHEAD>

December 15, 2005

Dear Program Director:

It is with great enthusiasm that I submit this letter of recommendation on behalf of <First and Last Name> (AMCAS ID#: XXXXXX). As a senior faculty person at the University of Illinois College of Medicine, I have had opportunity to see many talented medical students over the years. Rarely do I have an opportunity to work with a student as talented as <First and Last Name>.

I first met <First Name> when I served as a facilitator of small groups that we call clinical tutorials. In these small-group interactive sessions, students learn to do a history and physical examination, develop a problem list, and learn basic differential diagnoses. Students develop their own learning issues and report back to the group. It was obvious from the beginning that <First Name> was enthusiastic about clinical medicine and very well prepared. He had an unusual command of the basic sciences and a genuine curiosity about clinical presentations and about patients themselves. He exceeded expectations in his research on the clinical issues he was assigned to present to the group. At the same time, his presentations were not only well organized, but delivered at an appropriate level. <First Name> works well as part of a learning team. He has the exceptional talent of facilitating the participation of others and making those around him function at a higher level of enthusiasm and achievement. His effectiveness as a clinical teacher is well documented.

Later, I had opportunity to review <First Name>'s work during his <Name of Clerkship> clerkship. Again his work was enthusiastic, competent and thorough. Mr. <Last Name> always went beyond the average to gather data from multiple sources, and interpret and present it in a way that could be easily understood and used. After examining a patient with acute biliary colic, for example, he researched the available imaging modalities, learned why sonography was the recommended initial study, and presented this information to the group. Mr. <Last Name>, as a result, learned much about the interpretation of sonographic images of the gall bladder.
