

Standard vs. Learning Target

Standard: What we want students to be able to know and do at the end of any given time; standards are provided by the state(s) and derived from the National Standards. *Also can be known as Performance Expectations (PE in math), Content Standards (in science), GLE (reading, writing, social studies...)*

Learning Targets: These are statements of *intended learning based on the standards*. Learning targets are in kid friendly language and are *specific to the lesson for the day and directly connected to assessment*.

Performance-based Assessment for Middle and High School Physical Education Jacalyn Lea Lund, Mary Fortman Kirk, 2010 While performance based assessment has long been a staple of education no book covers the relevant topics for middle and high school physical education as thoroughly as this new edition of Performance Based Assessment for Middle and High School Physical Education This updated edition reflects the current NASPE standards and includes new ancillary materials more examples for educators and a new chapter about assessing fitness This text will help you develop assessments and implement them into your curriculum making the assessment process a natural part of instruction provide feedback to students so they know what they have accomplished and what they still need to do and use a variety of tools including open response questions game play and modified game play and progressive assessments to measure student learning The authors break down this complex subject into easily digestible pieces and show you how to develop assessments that will help you and your students work together to enhance the instructional process in physical education The authors who have over three decades of experience teaching and assessing in public schools describe the various types of performance based assessments and show how to implement the assessments using numerous models as examples to be adapted to your own situations Not only will you learn how to develop and use assessments to help students but you will also receive unit plans for team individual and dual sports that you can modify for use in your own classes You ll learn how to create rubrics use portfolios in the assessment process and integrate assessments into fitness education and physical education You ll also explore the challenges with traditional grading practices and find out how to overcome those challenges The authors provide a wealth of tools for assessing students according to local state and NASPE standards while helping students reach their goals The text is supported by a Web site that includes a test package a presentation package with PowerPoint slides an instructor guide and a CD ROM that includes additional forms and assessments Performance Based Assessment for Middle and High School Physical Education Second Edition will help you develop authentic assessments and get the most out of the assessment experience And in doing so it will help your students experience success Audience Reference for middle and high school educators in developing and implementing physical activity programs Text for education and physical education majors and for students in technology courses

Grading for Impact Tom Hierck, Garth Larson, 2018-04-04 Aim for a target based grading system and create stronger learning opportunities Do you wish there was more clarity when it comes to measuring student progress and learning What if there was a way to utilize grading and assessment to focus on learning rather than performance and the process rather than the product As grading assessment and reporting continue to be relevant topics of discussion this book helps you create a functional plan to elevate and advance standards based grading practices Teachers and administrators will learn how to assess grade and report against specific learning targets rather than standards as a whole to make skill acquisition the highest priority Grounded in application to provide focus and clarity this book features

Real case studies of schools that have incorporated target based assessment feedback grading and reporting Practical examples to guide implementation Questions checklists illustrations and audits of practice to showcase the work in action An accessible format and layout that support both immediate implementation and long term goals Despite being a topic that generates emotion and resistance to change target based assessment builds the foundation for a learner centered system that provides clear expectations and feedback for teachers students and parents Grading for Impact is a simple and straightforward guide to re thinking grading based on mastery of specific skills and concepts rather than broadly written standards Real world examples of teachers struggling with and answering the old questions are included How do we grade fairly and accurately and How do we use grades as an instructional strategy Joseph Staub High School Teacher Downtown Magnets High School CA Most stakeholders agree that report cards aren t enough to show what our students are learning in school but changing the traditional grading system is a task that requires careful planning and challenging discussions Grading for Impact shows educators how to start and plan the discussions that will result in genuine learning experiences for students Ernie Rambo Virtual Learning Community Coordinator Nevada National Board Professional Learning Institute

Instructional Models in Physical Education Michael Metzler, 2017-06-30 Ensures that physical educators are fully armed with a comprehensive plan for incorporating instructional models in their teaching Instructional Models for Physical Education has two primary goals for its readers The first is to familiarize them with the notion of model based instruction for physical education including the components and dimensions that determine a model s pattern of teaching and how to select the most effective model for student learning in a particular unit The second goal is to describe each of the instructional models in such a way to give readers enough information to use any of the models with confidence and good results The book includes everything readers will need for planning implementing and assessing when teaching with instructional models It will help readers incorporate research based practices in their lessons adapt activities to include students of varying abilities and teach to standards Models tied to NASPE standards The author has revised the third edition to show how using the instructional models can help teachers meet specific NASPE standards The book demonstrates the connection of NASPE standards with the models and clarifies that connection for students In addition a table in each of the model chapters shows explicitly how the model aligns with NASPE standards
