MEETING NOTES

I met with the client for a 45-minute session. The client reported feeling better since our last session. They mentioned that they had been able to manage their anxiety better and were feeling more confident in social situations. The client also mentioned that they had been able to sleep better and were feeling more energized. We discussed the client's progress and the effectiveness of the interventions used. The client expressed a positive attitude towards continuing the therapy and was motivated to work on their goals. We reviewed the client's risk assessment and found no immediate concerns. The client was given homework assignments to continue working on their goals between sessions. The session ended on a positive note, and the client thanked me for my help.
