Preempting Dissent The Politics Of An Inevitable Future:

Preempting Dissent Greg Elmer, Andy Opel, 2008 The legacy of the Bush administration and its War on Terror includes a new logic of surveillance suppressing public dissent and mobilizing both fear and faith In this accessible book Elmer and Opel show that this new logic stretches well beyond the realm of airport security and international relations into everyday police techniques including the use of Tasers the deployment of stealth crowd control the zoning of protestors and the suppression of public dissent Drawing on social theories and media analyses this book reveals the underlying logic of preemption whereby threats must be eliminated before they materialize By addressing the implications of this new logic Elmer and Opel lay the groundwork for more effective resistance *Taming an Uncertain Future* Liam P.D.

Stockdale, 2015-12-16 A popular cliché in contemporary public discourse holds that we live in a time of increasing uncertainty that the next catastrophe is perpetually imminent and yet increasingly beyond our capacity to foresee The future in short is becoming much more difficult to control One consequence of this increasingly widespread understanding of the future is that societies have turned to anticipatory governance strategies based on such concepts as risk management the precautionary principle and preemption to manage human affairs This book takes an in depth look at this trend by using the example of the preemptive security strategies deployed in the post 9 11 War on Terror to develop a critical understanding of how the proliferation of such anticipatory governance strategies affects the way political power is organized and exercised The book also makes a wider case for taking issues of time and the future more seriously in the study of contemporary global politics in particular and the social world more generally [The Prison House of the Circuit](#) Jeremy Packer, Paula Nuñez de

Villavicencio, Alexander Monea, Kathleen Oswald, Kate Maddalena, Joshua Reeves, 2023-03-07 Has society ceded its self governance to technogovernance The Prison House of the Circuit presents a history of digital media using circuits and circuitry to understand how power operates in the contemporary era Through the conceptual vocabulary of the circuit it offers a provocative model for thinking about governance and media The authors writing as a collective provide a model for collective research and a genealogical framework that interrogates the rise of digital society through the lens of Foucault's ideas of governance circulation and power The book includes five in depth case studies investigating the transition from analog media to electronic and digital forms military telegraphy and human machine incorporation the establishment of national electronic biopolitical governance in World War I media as the means of extending spatial and temporal policing automobility as the mechanism uniting mobility and media and visual augmentation from Middle Ages spectacles to digital heads up displays The Prison House of the Circuit ultimately demonstrates how contemporary media came to create frictionless circulation to maximize control efficacy and state power **Critical Perspectives on Social Media and**

Protest Lina Dencik, Oliver Leistert, 2015-10-06 Commercial social media platforms have become integral to contemporary forms of protests They are intensely used by advocacy groups non governmental organisations social movements and other

political actors who increasingly integrate social media platforms into broader practices of organizing and campaigning But aside from the many advantages of extensive mobilization opportunities at low cost what are the implications of social media corporations being involved in these grassroots movements This book takes a much needed critical approach to the relationship between social media and protest Highlighting key issues and concerns in contemporary forms of social media activism including questions of censorship surveillance individualism and temporality the book combines contributions from some of the most active scholars in the field today Advancing both conceptual and empirical work on social media and protest and with a range of different angles the book provides a fresh and challenging outlook on a very topical debate

Identity Politics and the New Genetics Katharina Schramm, David Skinner, Richard Rottenburg, 2012 Racial and ethnic categories have appeared in recent scientific work in novel ways and in relation to a variety of disciplines medicine forensics population genetics and also developments in popular genealogy Once again biology is foregrounded in the discussion of human identity Of particular importance is the preoccupation with origins and personal discovery and the increasing use of racial and ethnic categories in social policy This new genetic knowledge expressed in technology and practice has the potential to disrupt how race and ethnicity are debated managed and lived As such this volume investigates the ways in which existing social categories are both maintained and transformed at the intersection of the natural sciences and the cultural politics The contributors include medical researchers anthropologists historians of science and sociologists of race relations together they explore the new and challenging landscape where biology becomes the stuff of identity

Transgression 2.0 Ted Gornall, David J. Gunkel, 2011-11-24 One doesn't need to look far to find examples of contemporary locations of cultural opposition Digital piracy audio mashups The Onion and Wikipedia are all examples of transgression in our current mediascape And as digital age transgression becomes increasingly essential it also becomes more difficult to define and protect The contributions in this collection are organized into six sections that address the use of new technologies to alter existing cultural messages the incorporation of technology and alternative media in transformation of everyday cultural practices and institutions and the reuse and repurposing of technology to focus active political engagement and innovative social change Bringing together a variety of scholars and case studies *Transgression 2.0* will be the first key resource for scholars and students interested in digital culture as a transformative intervention in the types methods and significance of cultural politics

Cybersecurity Discourse in the United States Sean T. Lawson, 2019-12-05 This book examines the role of cyber doom rhetoric in the U S cybersecurity debate For more than two decades fear of cyber doom scenarios i e cyberattacks against critical infrastructure resulting in catastrophic physical social and economic impacts has been a persistent feature of the U S cybersecurity debate This is despite the fact that no cyberattack has come close to realizing such impacts This book argues that such scenarios are part of a broader rhetoric of cyber doom within the U S cybersecurity debate and takes a multidisciplinary approach that draws on research in history sociology communication psychology and political science It identifies a number of variations of cyber doom rhetoric then places them into a larger historical context assesses how realistic the fears expressed in such rhetoric are and finally draws out the policy implications of relying on these fears to structure our response to cybersecurity challenges The United States faces very real cybersecurity challenges that are nonetheless much less dramatic than what is implied in the rhetoric This book argues that relying on cyber doom rhetoric to frame our thinking about such threats is counterproductive and encourages us to develop ways of thinking and speaking about cybersecurity beyond cyber doom This book will be of much interest to students of cybersecurity foreign policy public administration national security and international relations in general

Child Data Citizen Veronica Barassi, 2020-12-22 An examination of the datafication of family life in particular

the construction of our children into data subjects Our families are being turned into data as the digital traces we leave are shared sold and commodified Children are datafied even before birth with pregnancy apps and social media postings and then tracked through babyhood with learning apps smart home devices and medical records If we want to understand the emergence of the datafied citizen Veronica Barassi argues we should look at the first generation of datafied natives our children In *Child Data Citizen* she examines the construction of children into data subjects describing how their personal information is collected archived sold and aggregated into unique profiles that can follow them across a lifetime

Abolishing Surveillance Chris Robé, 2023-09-05 The Department of Justice sought information on all who visited the DisruptJ20 org website for Donald Trump's inauguration Undercover agents infiltrate BlackLivesMatter protests Police routinely command bystanders to stop filming them by falsely claiming it is a crime Agricultural states like Iowa Idaho Utah and Wyoming enact laws that criminalize the filming of factory farm cruelty while allowing other the human animal suffering to continue unabated Dissent and poverty are increasingly criminalized by the state as precarity grows *Abolishing Surveillance* offers the first in depth study of how various communities and activist organizations are resisting such efforts by integrating digital media activism into their actions against state surveillance and repression and for a better world The book focuses on a wide array of movements within the United States such as Latinx copwatching groups in New York City Muslim and Arab American communities in Minneapolis undercover animal rights activists and counter summit protesters to explore the ways in which government surveillance and repression impacts them and more importantly their different but related online and offline tactics and strategies employed for self determination and liberation Digital media production becomes a core element in such organizing as cell phones and other forms of handheld technology become more ubiquitous Yet such uses of technology can only be successfully employed when built upon strong grassroots organizing that has always been essential for social movements to take root Neither idealizing nor disparaging the digital media activism explored within its pages *Abolishing Surveillance* analyzes the successes and failures that accompany each case study The book explores the historically shifting terrain since the 1980s to the present of how historically disenfranchised communities activist organizations and repressive state institutions battle over the uses of digital technology and media making practices as civil liberties community autonomy and the very lives of people and other than human animals hang in the balance

When Technocultures Collide Gary Genosko, 2013-11-23 *When Technocultures Collide* provides rich and diverse studies of collision courses between technologically inspired subcultures and the corporate and governmental entities they seek to undermine The adventures and exploits of computer hackers phone phreaks urban explorers calculator and computer collectors BlackBerry users whistle blowers Yuppies zinsters roulette cheats chess geeks and a range of losers and tinkerers feature prominently in this volume Gary Genosko analyzes these practices for their remarkable diversity and their innovation and leaps of imagination He assesses the results of a number of operations including the Canadian stories of Mafiaboy Jeff

Chapman of Infiltration and BlackBerry users The author provides critical accounts of highly specialized attributes such as the prospects of deterritorialized computer mice and big toe computing the role of electrical grid hacks in urban technopolitics and whether info addiction and depression contribute to tactical resistance Beyond resistance however the goal of this work is to find examples of technocultural autonomy in the minor and marginal cultural productions of small cultures ethico poetic diversions and sustainable withdrawals with genuine therapeutic potential to surpass accumulation debt and competition The dangers and joys of these struggles for autonomy are underlined in studies of RIM s BlackBerry and Julian Assange s WikiLeaks website **Protest Cultures** Kathrin Fahlenbrach,Martin Klimke,Joachim

Scharloth,2016-03-01 Protest is a ubiquitous and richly varied social phenomenon one that finds expression not only in modern social movements and political organizations but also in grassroots initiatives individual action and creative works It constitutes a distinct cultural domain one whose symbolic content is regularly deployed by media and advertisers among other actors Yet within social movement scholarship such cultural considerations have been comparatively neglected Protest Cultures A Companion dramatically expands the analytical perspective on protest beyond its political and sociological aspects It combines cutting edge synthetic essays with concise accessible case studies on a remarkable array of protest cultures outlining key literature and future lines of inquiry The Democratic Public Sphere Christina Fiig,Jorn Loftager,Jan Lohmann Stephensen,Henrik Kaare Nielsen,Mads P. Sørensen,Thomas Olesen,2016-08-01 Even in well established democratic societies the political system currently faces a crisis of civic engagement and participation Increasingly this lack of engagement and the accompanying erosion of institutional legitimacy result in antidemocratic populist currents gaining ground It is an important challenge for both the humanities and the social sciences to analyse this crisis and discuss possible answers that may contribute to strengthening the position of the democratic public sphere in the political process thus emphasising the crucial role of civic engagement and participation in renewing democracy The articles in this volume seek the sources for such democratic innovations in a variety of existing less formalised practices and experiences in public space in citizens forums and other concrete arenas for democratic debate and participation in the media in general including social media and other digital platforms in social movements and in artistic interventions in the public sphere The volume presents selected and edited papers and keynote lectures from the international research conference The Democratic Public Sphere Current Challenges and Prospects which was held at Aarhus University on November 5 7 2015 It includes contributions by keynote speakers Mark E Warren Nick Couldry Donatella della Porta and Stephen Duncombe
