Tyson,2018-01-12 This updated and expanded 1985 edition of the classic 1974 work covers deindustrialisation industrial and competition policy the public enterprise sector regional and urban policy and privatisation as well as focussing on the firm and the industrial sector in all its facets It remains the key work on industrial economics *Monthly Labor Review* United States. Bureau of Labor Statistics,1988-10 *Learning Directory* ,1970 **The World of the John Birch Society** D. Mulloy,2014-06-27 As far as

members of the hugely controversial John Birch Society were concerned the Cold War revealed in stark clarity the loyalties and disloyalties of numerous important Americans including Dwight Eisenhower John Kennedy and Earl Warren Founded in 1958 as a force for conservative political advocacy the Society espoused the dangers of enemies foreign and domestic including the Soviet Union organizers of the US civil rights movement and government officials who were deemed soft on communism in both the Republican and Democratic parties Sound familiar In The World of the John Birch Society author D J Mulloy reveals the tactics of the Society in a way they've never been understood before allowing the reader to make the connections to contemporary American politics up to and including the Tea Party These tactics included organized dissemination of broad based accusations and innuendo political brinksmanship within the Republican Party and frequent doomsday predictions regarding world events At the heart of the organization was Robert Welch a charismatic writer and organizer who is revealed to have been the lifeblood of the Society's efforts The Society has seen its influence recede from the high water mark of 1970s but the organization still exists today Throughout The World of the John Birch Society the reader sees the very tenets and practices in play that make the contemporary Tea Party so effective on a local level Indeed without the John Birch Society paving the way the Tea Party may have encountered a dramatically different political terrain on its path to power

Do Prisons Make Us Safer? Steven Raphael, Michael A. Stoll, 2009-01-22 The number of people incarcerated in U S prisons and jails more than quadrupled between 1975 and 2005 reaching the unprecedented level of over two million inmates today Annual corrections spending now exceeds 64 billion dollars and many of the social and economic burdens resulting from mass incarceration fall disproportionately on minority communities Yet crime rates across the country have also dropped considerably during this time period In Do Prisons Make Us Safer leading experts systematically examine the complex repercussions of the massive surge in our nation's prison system Do Prisons Make Us Safer asks whether it makes sense to maintain such a large and costly prison system The contributors expand the scope of previous analyses to include a number of underexplored dimensions such as the fiscal impact on states effects on children and employment prospects for former inmates Steven Raphael and Michael Stoll assess the reasons behind the explosion in incarceration rates and find that criminal behavior itself accounts for only a small fraction of the prison boom Eighty five percent of the trend can be attributed to get tough on crime policies that have increased both the likelihood of a prison sentence and the length of time served Shawn Bushway shows that while prison time effectively deters and incapacitates criminals in the short term long term benefits such as overall crime reduction or individual rehabilitation are less clear cut Amy Lerman conducts a novel investigation into the effects of imprisonment on criminal psychology and uncovers striking evidence that placement in a high security penitentiary leads to increased rates of violence and anger particularly in the case of first time or minor offenders Rucker Johnson documents the spill over effects of parental incarceration children who have had a parent serve prison time exhibit more behavioral problems than their peers Policies to enhance the well being of these children are

essential to breaking a devastating cycle of poverty unemployment and crime John Donohue's economic calculations suggest that alternative social welfare policies such as education and employment programs for at risk youth may lower crime just as effectively as prisons but at a much lower human cost The cost of hiring a new teacher is roughly equal to the cost of incarcerating an additional inmate The United States currently imprisons a greater proportion of its citizens than any other nation in the world Until now however we've lacked systematic and comprehensive data on how this prison boom has affected families communities and our nation as a whole Do Prisons Make Us Safer provides a highly nuanced and deeply engaging account of one of the most dramatic policy developments in recent U S history **Recording Oral History**
