**Workbook for News Reporting and Writing** Brian S. Brooks, Missouri Group, George Kennedy, Daryl R. Moen, Don Ranly, 2010-11-10 It's a tumultuous time in journalism as media forms evolve and new models emerge. There are few clear answers but no one is more prepared than The Missouri Group to tackle these issues head on and to teach students the core enduring journalism skills they need to succeed whether they write for the local paper, a professional blog, cable news or even work in public relations.

**The Complete Newspaper Resource Book** Jane Lamb, 1985 A tool and sourcebook with reproducible pages aids teachers using the newspaper in the classroom.

**The Civil Power of the News** Jackie Harrison, 2019-10-18 This landmark book is concerned with the civil power of the news. This power can be seen in the ways the news engages with public sentiment through a focus on three invariant civil concerns: identity, legitimacy and risk. The book analyses how news stories engage with these concerns to make civil and anti-civil judgements which influence public sentiment and determine the boundaries we place and maintain around the society we live in. Through historical and contemporary examples of this boundary shaping and maintenance, *The Civil Power of the News* presents a bold and original account of the architecture of news, the influence it has on our conceptions of civility and ultimately the power it wields.

News in a Digital Age Kavanagh, Marcellino, Jonathan S. Blake, Smith, Davenport, Tebeka, 2019-05-14 This report presents a quantitative assessment of how the presentation of news has changed over the past 30 years and how it varies across platforms. Over time and as society moved from old to new media, news content has generally shifted from more objective event and context based reporting to reporting that is more subjective, relies more heavily on argumentation and advocacy and includes more emotional appeals.

**Atlas of Challenges and Opportunities in European Neighbourhoods** Pierre BECKOUCHE, Pierre BESNARD, Hugues PECOUT, 2016-04-26 This atlas provides a macro regional overview of the areas that surround the European Union from the Sahara to the Middle East, Western Balkans to European Russia, Turkey to the Arctic. Detailing key socio-economic data as well as developmental trends, the maps provide a comprehensive territorial analysis at a local scale and explore the potential for regional integration and cooperation. These pioneering maps examine challenges that threaten this wide yet inter-connected region including environmental concerns in the North, political unrest in the East, social factors in the Western Balkans and the upheaval in the Mediterranean since the Arab Spring. Coverage investigates such key countries and areas as Libya, Israel, Palestine, Syria and the Ukraine as well as explores such essential issues as Europe's energy procurement. In addition, it also presents a comparison with other world regions such as East Asia and North America. In the end, readers discover that territorial integration faces many shortcomings but that deep regional cooperation would be a key driver for the EU's sustainable future. This atlas features the main results of the Integrated Territorial Analysis of the Neighbourhoods research project undertaken by ESPON, The European Observation Network for Territorial Development and Cohesion. It provides scholars, local authorities and NGOs involved in cross border cooperation, companies
