Legal Issues Relating to Football Head Injuries United States. Congress. House. Committee on the Judiciary, 2010

Governance and Policy in Sport Organizations Mary A. Hums, Joanne C. MacLean, 2017-05-11 The third edition of *Governance and Policy in Sport Organizations* introduces readers to the power and politics of sport organizations. It explores the managerial activities essential to governance and policy development and it looks at the structure and function of organizations like those with which readers will interact in the workplace. It also demonstrates where the power lies in an organization or industry segment and how individual sport organizations fit in to the greater industry. Current policy issues and the ethical questions they raise are also addressed. Real world case studies demonstrate the types of dilemmas that sport managers face every day. In addition, professional administrators from a wide variety of sport organizations contribute their perspectives, giving readers a glimpse into the real concerns of sport professionals and the impact of governance and policy on their jobs. The book's practical foundations, readability, and logical organization all help readers to understand the big picture of the sport industry and their place in it as future sport managers. New to the third edition is a chapter on individual professional sport which explores how this industry segment differs from professional sport leagues. In addition, contributions from Thierry Zintz from the Universite catholique de Louvain offer insights into European sport organizations.

Case Studies in Coaching Ethics Anthony Parish, Timothy Baghurst, 2023-09-15 Coaches are placed in a myriad of ethical decision making situations. Making decisions such as playing time, boosters, parents, social media, power differentials, scholarships, and relationships are just a few examples of what a coach may need to navigate. While many day to day situations are easily resolved, some are not. Therefore, how and by what process should a coach make these decisions? This book presents a variety of cases based on true stories that present some of the ethical decisions coaches must make across high school, collegiate, and professional sports. Using a sequential system of less to more complicated, 40 case studies are presented across the sports spectrum that coaches have experienced. This is a key component of the book. Although names and situations have been changed, these cases have happened and provide real applicability to coaches. In addition, each case may contain multiple situations, perhaps with no right answer, that test a coach's value system and ability to prioritize actions. Questions are provided at the end of each case that allow for reflection. The primary audience for this book includes current coaches as well as students in coach education programs at both the undergraduate and graduate levels.
