Buying and Selling Guide is tailored specifically to help the management and IT staff of small and mid-sized businesses evaluate how the IBM midmarket portfolio can provide simple and cost effective solutions to common business problems. Along with a midmarket customer focus this IBM Redpaper™ publication is designed to help IBM teams and Business Partners be more effective in serving small and mid-sized businesses. We illustrate how IBM software for the midmarket can help businesses use the Web to reduce expenses, improve customer service and expand into new markets. We cover the IBM software offering for the midmarket which includes what the software does, the platforms it runs on, where to find more information and how it can help your business become more profitable. IBM Business Partners often keep a printed copy of this guide in their briefcases for software references. Customers can view this guide online and look up software value messages and IBM product family offering comparisons. IBM Sales Representatives can print parts of this guide as leave-behinds for customers to give them extra collateral on midmarket software of interest. [IT Security Compliance Management Design Guide with IBM Tivoli Security Information and Event Manager](#) Axel Buecker, Jose Amado, David Druker, Carsten Lorenz, Frank Muehlenbrock, Rudy Tan, IBM Redbooks, 2010-07-16. To comply with government and industry regulations such as Sarbanes Oxley, Gramm Leach Bliley, GLBA and COBIT, which can be considered a best practices framework, organizations must constantly detect, validate and report unauthorized changes and out of compliance actions within the Information Technology (IT) infrastructure. Using the IBM Tivoli Security Information and Event Manager solution, organizations can improve the security of their information systems by capturing comprehensive log data, correlating this data through sophisticated log interpretation and normalization, and communicating results through a dashboard and full set of audit and compliance reporting. In this IBM Redbooks publication, we discuss the business context of security audit and compliance software for organizations and describe the logical and physical components of IBM Tivoli Security Information and Event Manager. We also present a typical deployment within a business scenario. This book is a valuable resource for security officers, administrators and architects who want to understand and implement a centralized security audit and compliance solution. [Win32 Perl Scripting](#) Dave Roth, 2000. Scripting has become an enormously popular method of managing and maintaining Windows NT and 2000 networks, as evidenced by the success of Windows NT Shell Scripting, which has sold over 30,000 copies in 2 years. Simpler than programming yet allowing greater complexity and utility than packaged network management tools, scripting is now the tool of choice by many of you network administrators. Perl is yet another powerful element of the scripting arsenal.
