**Production and Operations Management** Singh S.P., This book covers the emerging and important topics related to production and operations management in a systematic way. It covers not only the essentials of planning, designing, managing and controlling of manufacturing operations but also a number of relevant topics such as total preventive maintenance, environmental issues in production system, advanced production system, total productivity management and work system design which are not covered in many books. The book is a useful resource for undergraduate and postgraduate students of MBA programmes as well as B Tech and M Tech programmes of production and industrial engineering. Key Features: Theories and concepts based on day to day practical applications in the industry. Large number of solved examples to explain the theoretical concepts. Case study at the end of each chapter to illustrate the theory. Brings out the link between linear programming and its applications. *Fort Saint George Gazette* Madras (India : State), 1962 **SP's Military Yearbook**, 2001 **International Commerce**, 1963 *User's Manual to the International Annual Reports Collection*, 1988

Smart Manufacturing Tan Yen Kheng, 2021-01-14 Smart manufacturing uses big data, the Internet of things (IoT) and the Internet of Services (IoS) and flexible and dynamic workforces to cope with ever increasing demand in low volume high mix production. Companies worldwide are already pivoting towards dynamic and reconfigurable production as a smarter way to build and make things. As such, this book discusses the next generation of manufacturing which will involve the transformational convergence of intelligent machines, powerful computing and analytics and unprecedented networking of people, products and services.
