**Performer** Marina Spiazzi,2012    *Performer FCE Tutor* Marina Spiazzi,2012    **Technological Innovation in the Teaching and Processing of Lsp's: Proceedings of Tislid'10** Noa Talaván Zanón,Elena Martín Monje,Francisco Palazón Romero,2011-03-10 The present book is a compilation of articles corresponding to the papers presented at TISLID 10 the First International Workshop on Technological Innovations for Specialised Linguistic Domains which took place in Spain on October 21 22 2010 The program of TISLID 10 was established to offer the research and teaching community an opportunity to exchange knowledge and experiences and promote face to face academic debate on effective and innovative ways to design and develop CALL systems and NLP systems for sublanguages or specialized linguistic domains The inclusion of basic research undertaken in educational institutions and research centers together with the applied research and commercial development undertaken by publishers e Learning companies etc was considered a priority    *Delivering a Preparatory Course for The Cambridge Firts Certificate in English Examination by Using the Ingenio E-Learning Platform* ,2011-03-24 La publicaci n de este volumen representa un caso relativamente ins lito Un peque o grupo de j venes investigadores de menos de treinta a os convence a un grupo mucho m s numeroso de la misma edad para celebrar en Salamanca la First Conference of Young Researchers on Anglophone Studies El resultado es deslumbrante No solo demuestran una gran capacidad organizativa sino que los resultados individuales de las aportaciones cient ficas son sobresalientes Este volumen Current Trends in Anglophone Studies recoge una selecci n revisada de las propuestas presentadas en el Encuentro y gira en torno a una estructuraci n tripartita cl sica estudios culturales ling sticos y literarios En ella caben todos aquellos que se mueven en el campo de los estudios angl fonos Cada uno de estos campos podr a haber sido suficiente para celebrar un congreso pero parece razonable que en este tipo de encuentros tengan cabida todos De ese modo este volumen se convierte en un ejemplo de aproximaci n interdisciplinar a los estudios angl fonos Desde un punto de vista cuantitativo los estudios culturales ocupan sin duda un espacio menor Sin embargo sobresale la variedad de temas tratados as como la internacionalizaci n de los autores dentro de este apartado Estudiantes espa oles e italianos acometen estudios relacionados con la m sica la pintura el cine la traducci n la marginalidad social o el impacto de las nuevas tecnolog as en la producci n art stica Si no pareciera demasiado atrevido podr a decirse que estos j venes estudiantes ir an m s all de lo que un d a ya lejano pudieron imaginar Richard Hoggard o Raymond Williams Los estudios aqu presentados reflejan sin duda la evoluci n que la propia sociedad ha experimentado en estos ltimos cincuenta a os y exploran la relaci n entre las pr cticas culturales la vida diaria y los contextos econ micos pol ticos e hist ricos No es de extra ar que una gran parte de las contribuciones presentadas en este volumen se centren en el estudio de la lengua ya que la demanda del ingl s se ha incrementado de forma considerable en los ltimos a os Sobresalen los an lisis puramente filol gicos y sobre todo los relacionados con el aprendizaje del ingl s como segunda lengua Por eso destacan estudios que contemplan rasgos morfol gicos l xicos o sint cticos Sin embargo el mayor n mero de

participaciones hace referencia al ya citado aprendizaje del inglés como L2 tanto desde el análisis de materiales como desde la práctica oral o escrita. Las contribuciones literarias ofrecen una evaluación teórica formal e interpretativa de distintas tendencias desde perspectivas tanto interdisciplinares como interculturales. Cronológicamente los estudios abarcan textos desde el siglo XVIII hasta nuestros días con un acento especial en los autores más contemporáneos y en el género narrativo. En general estos estudios se fijan en textos concretos y los analizan desde perspectivas culturales, sociológicas o psicológicas. Pero abundan menos las aproximaciones desde la teoría literaria desde la técnica narrativa o como tal vez cabría esperar al tratarse de estudiantes tan jóvenes desde la aplicación de las nuevas tecnologías. Por el contrario se repiten temas como los traumas heredados de la Guerra de Vietnam, las cicatrices del 11 de septiembre o los problemas de género. En definitiva se trata de una selección de artículos claramente prometedora que transmite la seguridad de que el futuro de la Filología Inglesa está en buenas manos y podrá experimentar una positiva evolución en los próximos años. Por todo ello hay que felicitar a todos los participantes individuales y sobre todo a los organizadores del evento y editores de este volumen que han demostrado una enorme capacidad de trabajo y de saber hacer.
