China is building a New Silk Road that runs through the heartland of the Muslim world promising it will create integrated economies and stronger ties across Eurasia and Africa Robert R Bianchi argues that while China has the financial and technical resources to accomplish its infrastructure goals it is woefully unprepared to deal with the social and political demands of its partner countries citizens **Hugo von Hofmannsthal and the Austrian Idea** David S. Luft,2011-05-15

The Austrian writer Hugo von Hofmannsthal 1874 1929 was one of the great modernists in the German language but his importance as a major intellectual of the early twentieth century has not received adequate attention in the English speaking world One distinguished literary scholar of his generation called Hofmannsthal a spiritual moral authority of a kind German culture had only rarely produced This volume provides translations of essays that deal with the Austrian idea and with the distinctive position of German speaking Austrians between German nationalism and peoples to the East whether in the Habsburg Monarchy or beyond it as well as essays that locate Hofmannsthal s thinking about Austria in relation to the broader situation of German and European culture **The Encyclopedia of Fantasy** John Clute,John Grant,1999-03-15

Nazi period in the work of three artists Felix Nussbaum Charlotte Salomon and Arnold Daghani focusing on their use of pictorial narrative It analyses their contrasting aesthetic strategies and their innovative forms of artistic production In contrast with the autonomous modernist art object their works were explicitly linked with the historical conditions under which they were produced the pressures of persecution and exile Conditions in the slave labour camps and ghettos in the Ukraine which shaped the paintings and drawings of Daghani are contrasted with the experiences of exile in Belgium and France which inspired Nussbaum and Salomon In defiance of conventional artistic practice they produced word image combinations that can be read as narrative sequences incorporating specific references to political events While there has been a wealth of literary philosophical and historical studies relating to the Holocaust aesthetic debate has developed less extensively This is the first comparative study of three artists who are only belatedly achieving recognition and the recent reception of their work is evaluated By identifying the aesthetic principles and narrative strategies underlying their work the book reassesses their achievement in creating new forms of modernism with an unmistakable political momentum This book was published as a special issue of Word Image
