Greenhouses of Hope Dorie Grinenko Baker, 2010-11-12 Do you know a church where young people regularly shape the liturgy with words that speak their truth in ways that also inspire their elders Do you hear about congregations that reach out in quirky new ways to their ailing neighborhoods instead of locking doors and shipping out to a suburb Do you find churches creating hospitable space that invites the live wriggling questions and doubts of young people in unhurried unworried ways Do you see congregations where young people s gifts are not stored in the basement or bracketed into contemporary worship services but are brought forth and celebrated The authors who collaborated on this book launched a quest for such vibrant life giving greening congregations and observed the diverse practices that grow there They named these churches Greenhouses of Hope A Greenhouse of Hope is a Christian congregation freeing itself to experiment with both newly imagined and time honored ways of following the path of Jesus Its members respond to God s love through practices that genuinely embrace the gifts of

Shakespearean Stage 1567-1642 R B Graves examines the lighting of early modern English drama from both historical and aesthetic perspectives. He traces the contrasting traditions of sunlit amphitheaters and candlelit hall playhouses, describes the different lighting techniques, and estimates the effect of these techniques both indoors and outdoors. Graves discusses the importance of stage lighting in determining the dramatic effect, even in cases where the manipulation of light was not under the direct control of the theater artists. He devotes a chapter to the early modern lighting equipment available to English Renaissance actors and surveys theatrical lighting before the construction of permanent playhouses in London. Elizabethan stage lighting, he argues, drew on both classical and medieval precedents.
