Note-Taking Guide for Larson/Battaglia's Precalculus with Limits Ron Larson, Paul Battaglia, 2021-01-02 *Acquisition of Complex Arithmetic Skills and Higher-Order Mathematics Concepts* David C. Geary, Daniel B. Berch, Robert Ochsendorf, Kathleen Mann Koepke, 2017-08-01 *Acquisition of Complex Arithmetic Skills and Higher-Order Mathematics Concepts* focuses on typical and atypical learning of complex arithmetic skills and higher-order math concepts. As part of the series *Mathematical Cognition and Learning*, this volume covers recent advances in the understanding of children's developing competencies with whole number arithmetic, fractions, and rational numbers. Each chapter covers these topics from multiple perspectives, including genetic disorders, cognition, instruction, and neural networks. Covers innovative measures and recent methodological advances in mathematical thinking and learning. Contains contributions that improve instruction and education in these domains. Informs policy aimed at increasing the level of mathematical proficiency in the general public.

Crossroads in the History of Mathematics and Mathematics Education Bharath Sriraman, 2012-07-01 The interaction of the history of mathematics and mathematics education has long been construed as an esoteric area of inquiry. Much of the research done in this realm has been under the auspices of the history and pedagogy of mathematics group. However, there is little systematization or consolidation of the existing literature aimed at undergraduate mathematics education, particularly in the teaching and learning of the history of mathematics and other undergraduate topics. In this monograph, the chapters cover topics such as the development of Calculus through the actuarial sciences and map-making, logarithms, the people and practices behind real-world mathematics, and fruitful ways in which the history of mathematics informs mathematics education. The book is meant to serve as a source of enrichment for undergraduate mathematics majors and for mathematics education courses aimed at teachers.
