Publisher Introduction You do not have to be an expert professional Chef to become a good cook In fact cooking is one of the most satisfying of hobbies once you get started by letting your creativity loose Once upon a time there was an old fashioned attitude prevailing all over the world that cooking came under the heading of a women s duty prerogative and work Luckily with the passing of time more and more men are getting past this prejudice especially in our modern world when professions are not gender based In fact most of the more popular and expert cooks in the world today are men If you look at ancient times you are going to read about Royal kitchens where the helpers in the kitchen were always men and women slaves in ancient civilizations but the head cook was always a man In Egypt Greece Rome and even Asian civilizations and countries like China Japan Korea and India the master cook was almost always a man The idea that cooking was the job of a woman came from the fact that a man could not be tied to the cooking pots when he had to do the hunting of the food or farming it

on the land outside Soon as time went by women began setting out their own boundaries in the household and this included cooking This arrangement worked well up to the middle of the 20th century in developed countries when there began to be a slow and steady change in mental outlook especially in the roles of men and women in the house and the duties they had to do But in older civilizations especially where traditions still linger on men are allowed into the kitchen they want to cook but they are not encouraged I remember in the 70s when my maternal grandmother never allowed me to come into the kitchen because that was her area She had not encouraged her sons or daughters to learn how to cook either and that did not serve them well in a traditional society especially after they got married However my paternal grandmother came from a family where the menfolk enjoyed their food and they were quite capable of kicking up a fuss if the food was not served according to their own tastes specifications and made exactly as they wanted it made And that is why they came into the kitchen to give the food their own personal touch with spices and the last seasoning before it was to be served up piping hot And so thankfully because father had seen his father and his grandfather entering the family kitchen of course after leaving their shoes outside their wives insisted on that he also became a bit of a foodie And that is why even though he is 85 he leaves the basic cooking to me which is the womenfolk do the cooking grinding chopping and all the heavyweight jobs and the men do the tasting experimenting stirring etc Unless of course he wants to make something special on his own
