monuments which would magnify the pride of Egypt and their Pharaohs throughout the world There were no slave drivers with whips and lashes to make them sweat whatever Mr Cecil DeMille may want us to think The diet of these farmers pyramid workers was onions with herbs and horse radishes bread made up of freshly ground corn and beer They did not mind spending a part of their year building pyramids for their Kings who appreciated their hard work by allowing them grain from the nation s granaries These Egyptians knew all about the value of onions and worshiped them as a symbol of eternal life in many circles Ancient Egyptians had onions placed on their eyes before embalming or mummifying and burial so that they could enter the circle of eternal life With daily portions of Onions salt and herbs Roman soldiers were happy Roman soldiers also included onions in their diet especially in the evenings when they ate onions with red cayenne peppers and the salt they got as salary for the day s work In medieval times onions were held to be so precious in many parts of the world that landlords demanded onions as rent in lieu of coin from their tenants
