

INVESTIGATION REPORT

On November 4, 2015, I was contacted by Lisa Umscheid, an attorney with the Oregon Department of Justice ("DOJ"), regarding my availability to conduct an investigation into the use of a digital monitoring software platform by at least one employee of the DOJ's Criminal Justice Division ("CJD" or "division"). By contract effective November 10, 2015, the DOJ retained me under the supervision of the DOJ's Supervising Attorney, Ms. Umscheid, to (a) conduct an investigation into any improper conduct and performance of employees with regard to their compilation, analysis, monitoring and use of digital information (such as content posted on websites, social media or Twitter feeds) in the course of any work performed as employees of DOJ; and (b) advise DOJ regarding the scope of an audit of the CJD's compilation, analysis, monitoring and use of digital information in connection with the division's work.

This investigation was initiated by order of Oregon Attorney General Ellen Rosenblum after she learned that DOJ/CJD employee, [REDACTED], used social media monitoring software that was being tested for potential purchase by the DOJ to conduct a search using search terms including #Blacklivesmatter. The search resulted in a review of the Twitter account of Erilus Johnson, Jr., Director of Civil Rights for DOJ and Office of Attorney General, and [REDACTED] generated a report on the outcome of the search. The Attorney General notified Mr. Johnson of this report, subsequently called for this investigation into the matter and placed [REDACTED] on administrative leave pending the outcome of the investigation.

[REDACTED] is an investigator assigned to the Oregon TITAN Fusion Center, which is a unit within the CJD's Criminal Intelligence Unit. An overview of the Criminal Intelligence Unit, as provided in writing by former DOJ Chief Counsel Darin Tweedt, is set forth below:

Criminal Intelligence Unit

The ability to gather and analyze information about criminals and their organizations is invaluable to law enforcement agencies.¹ The Criminal Intelligence Unit, aka

¹ The benefits of gathering and analyzing criminal information was recognized by the Oregon legislature in 1977 when it directed the Department of Justice to:

- (2) Establish a coordinated system of collecting, storing and disseminating information relating to organized crime.
- (3) Develop and maintain a liaison between local, state and federal law enforcement agencies in Oregon, assisting them in the investigation and suppression of organized criminal activity and encouraging cooperation among those agencies.
- (4) Conduct comprehensive factual studies of organized criminal activity in Oregon, outlining existing state and local policies and procedures with respect to organized crime, and formulating and proposing such changes in those policies and procedures as the department may deem appropriate.

Report Writing On Crime Scene Investigation:

Report Writing for Crime Scene Investigators Laura Pazarena, Michael Kessler, Amy Watroba, 2022-06-29 Report Writing for Crime Scene Investigators provides students with the tools to write effective crime scene reports. Students looking to break into the field of crime scene investigations often take courses in report writing but the textbooks available are commonly geared toward general law enforcement and first responders. However, none of the books on the market focus on the craft of effective informative writing with graphic crime scene specific considerations in mind. While falling under law enforcement's purview, crime scene investigations fall within the forensic science field and as such the reporting required is more technical and often more scientific in nature than the average police report. Due to the lack of published resources and guidance in this critical area, there is no standard that currently exists for vital function within crime scene and investigative circles and often the subject is given short shrift. This creates wide discrepancies among what students are being taught. This book is the first of its kind to provide students and those professionals and agencies in need of a blueprint with a resource to teach them the various types of reports and how to refer to scenarios and specific types of evidence to ensure that the report holds up under the process of an investigation and for use within the courts. Key features: Outlines the key distinctions between police style reports and crime scene style reports and writing. Explains how to clearly and accurately provide an accounting and description of a variety of evidence recovered from a scene. Details how to best organize the report in a logical manner and sequence including the various components of the crime scene report. Presents an explanation of the information that should be included in the report and the rationale behind its importance for testimonial purposes. Report Writing for Crime Scene Investigators provides to the reader the fundamentals of effective report writing for the active field. Crime Scene Investigator Coverage includes the necessary steps to thoroughly document scenes and evidence from the time the CSI receives the call until the time the CSI testifies in court. In addition to the student market, the book will be a welcome resource for professional crime scene investigators, attorneys, and as a reference and standard for professional training programs.

Complete Crime Scene Investigation Workbook Everett Baxter Jr., 2017-09-28 This specially developed workbook can be used in conjunction with the Complete Crime Scene Investigation Handbook ISBN 978 1 4987 0144 0 in group training environments or for individuals looking for independent step by step self study guide. Key features include examples, checklists, and flow charts for evidence handling and routing. CSIs, fire investigators,

homicide investigators accident investigators police executives and students of forensic science will benefit from this thorough approach to how the crime scene and the personnel charged with tending to the evidence should be managed
