Cambridge Compendium of International Commercial and Investment Arbitration Stefan Kröll,Andrea K. Bjorklund,Franco Ferrari,2023-03-02 The Compendium like an encyclopedia contains entries for most of the foundational principles and concepts underlying arbitration Each entry takes a holistic view of international arbitration as they tackle core concepts from both a commercial and an investment arbitration perspective focusing on the fundamental issues underlying the various topics rather than on the solutions adopted in any particular jurisdiction thus making the Compendium a truly cross border transnational resource This innovative approach will allow readers to identify the commonalities as well as the differences between commercial and investment arbitration whether and where cross fertilization has taken place and what consequences it can have This approach allows the Compendium to be a tool in promoting the creation of a culture of international arbitration that considers commercial arbitration and investment arbitration as part of a whole but with certain distinct features particular to each

FOUNDATIONS OF COUNSELING PEOPLE Michael E. Illovsky,2013-04-01 Those in the counseling profession are interacting more with people from other cultures the U S sphere of influence throughout the world is spreading increasingly we are providing services to clients who are not Caucasian or of European heritage and our educational programs have been active in training both domestic students of diverse ethnic backgrounds as well as foreign students These factors combine to contribute to the need for those who provide counseling to understand the elements involved in interacting with a wide spectrum of people This book meets that

need by providing a brief synopsis on such topics as common factors values universals cross cultural competence and models approaches and psychological perspectives of human behavior theories of personality The emphasis is on material that relies more on the use of the scientific method and data instead of anecdotal and experiential literature For the reader who is interested in obtaining information from which statements are derived there are references to investigate the material further Unlike other book that stress the barriers between counselor and client this book adds the perspective that there are factors that facilitate interactions between the two There are also frequent cross cultural examples in the book To facilitate awareness of similarities and differences in views of human behavior samples of African Arab Chinese and European American perspectives are represented There is also a relatively large section on applications This consists of such subjects as cross cultural aspects of psychological theories ethics research tests Euro American approaches and experiences client characteristics client and counselor interactions and therapeutic techniques Many other topics are covered as well Students and professionals in the fields of counseling and psychology will find this book to be an invaluable addition to their library

Elicitation Strategies for Interviewing and Fieldwork: Emerging Research and Opportunities Clarke, Rodney J.,2018-12-26 Genre theory has been used to describe patterns within certain types of mass media especially patterns associated with written and spoken language These same methods can be applied to interviewing and the planning and creation of focus groups Elicitation Strategies for Interviewing and Fieldwork Emerging Research and Opportunities is a pivotal reference source that provides vital research on the application of textual strategies associated with initiating or eliciting texts and strategies for keeping responders on task While highlighting topics such as microgenre interview protocol and cultural context this publication explores interview techniques as well as the methods of using these strategies to keep interviews relevant This book is ideally designed for academicians researchers journalists communication specialists and interviewers seeking current research on interview strategies and textual strategies important to recognizing and evaluating patterns within responses Advertising and Public Relations Research Donald W. Jugenheimer,Larry D. Kelley,Jerry Hudson,Samuel Bradley,2015-04-16 Designed to serve as a comprehensive primary text for research methods courses in advertising and or public relations programs this book concentrates on the uses and applications of research in advertising and public relations situations The authors goal is to provide the information needed by future practitioners to commission and apply research to their work problems in advertising and public relations Researching the Police in the 21st Century J. Gravelle,C. Rogers,2014-09-02 This unique collection explores the importance of undertaking police research using a range of international examples from USA UK and Germany Focusing on practical challenges and difficulties the volume offers solutions and reflections to assist in overcoming the barriers which might be encountered whilst carrying out research of this nature *Addressing Methodological Challenges in Interpreting Studies Research* Claudio Bendazzoli,Claudia Monacelli,2016-06-22 Using interaction as a fundamental springboard Addressing Methodological Challenges in Interpreting

Studies Research showcases the major breakthrough in interpreting studies made by investigating community interpreting and the inherent high degree of participant interaction The book adds a reflexive twist and espouses the notion of the analyst as not separate from the context under study After looking at dialogue interpreters cast away from the carpeted walls of sound proof booths and deprived of the spotlighted lectern podium position at high level fora it has become clear that the interpreter s invisibility not to mention their neutrality is uppermost in the minds of both users and providers in terms of expectations Among all the participants in any mediated communicative situation it is the interpreter who is exceedingly visible and potentially most influential in shaping and coordinating the ongoing exchanges The book proposes that a similar view be applied to researchers engaged in interpreting research especially in empirical investigations Different forms of interaction between researchers and the data in their studies are inevitable This applies to every stage of their work ranging from all the pre analysis activities to the analysis itself and the post analysis stage in which results are disseminated in the research community and possibly the target population This volume will stand to benefit all those who work with researching language issues not only because of the various approaches covered in the volume but also because of the ways in which they are reframed as a result of shifting contextual constraints *Philosophical and Empirical Approaches to Psychology*

Giuseppe Lo Dico, 2016-02-02 *Philosophical and Empirical Approaches to Psychology* Mentalism vs Anti Mentalism philosophically analyzes four different approaches to psychology introspectionism behaviourism cognitive psychology and cognitive neuroscience to explore the concept of the mind which developed from the late nineteenth and early twentieth century up through present day psychology The resulting ideas originating from these approaches are divided into two main groups in this book mentalism whose supporters assume that mind is not reducible to something else and anti mentalism whose supporters assume that mind is indeed reducible to something else This book argues that adopting one idea over another can have a profound influence in a psychologist s research Further the author shows that some controversial psychological notions like consciousness pertain to a particular mentalistic approach Many psychologists do not consider such notions scientific but he argues that this depends upon their adherence to a certain anti mentalistic approach or to a specific mentalistic perspective The book examines these issues by assessing experimental psychology in relation to neurobiology and philosophy offering an integration of philosophical and theoretical chapters along with empirical and experimental chapters Theoretically the arguments draw from philosophy of psychology and experimental psychology Using empirical research *Philosophical and Empirical Approaches to Psychology* examines the role of the various mentalistic and anti mentalistic approaches to psychology by integrating epistemological analysis and empirical research [Media Work, Mothers and Motherhood](#) Susan Liddy, Anne O'Brien, 2021-04-20 This interdisciplinary and international volume offers an innovative and critical exploration of the impact of motherhood on the engagement of women in media and creative industries across the globe Diverse contributions critically engage with the intersections and overlap between the social

categories of worker and mother and the work of media production and maternal caregiving. Conflicting ideas about and expectations of mothers are untangled in the context of the working world of radio, film, television and creative media industries. The book teases out commonalities between experiences that are evident across a number of countries from Hollywood to Bollywood as well as examining the differences between class, religion, maternal status and cultural frameworks that surround working mothers in various nation states. It also offers some possibilities for ways forward that can improve the lives of women workers who are also mothers. A timely and valuable contribution to international debates on equality, mothers and motherhood in audiovisual industries, this book will be of interest to scholars and students of media communication, cultural studies and gender programmes engaged with work inequalities and motherhood studies and activists, funders, policymakers and practitioners.
