ABSTRACT

The purpose of this study was to determine the effectiveness of various teaching methods used for teaching students at graduate level. This same criterion was also put forth by Thomas Angelo, when he said, "teaching in the absence of learning is just talking." Doyle.T. (n.d.). A teacher's effectiveness is again about student learning.

The literature on teaching is crammed full of well researched ways that teachers can present content and skills that will enhance the opportunities for students to learn. It is equally filled with suggestions of what not to do in the classroom. However, there is no rule book on which teaching methods match up best to which skills and/or content that is
