**School Lunch Politics**

Susan Levine,2011-11-21 Whether kids love or hate the food served there the American school lunchroom is the stage for one of the most popular yet flawed social welfare programs in our nation s history School Lunch Politics covers this complex and fascinating part of American culture from its origins in early twentieth century nutrition science through the establishment of

the National School Lunch Program in 1946 to the transformation of school meals into a poverty program during the 1970s and 1980s Susan Levine investigates the politics and culture of food most specifically who decides what American children should be eating what policies develop from those decisions and how these policies might be better implemented Even now the school lunch program remains problematic a juggling act between modern beliefs about food nutrition science and public welfare Levine points to the program menus dependence on agricultural surplus commodities more than on children s nutritional needs and she discusses the political policy barriers that have limited the number of children receiving meals and which children were served But she also shows why the school lunch program has outlasted almost every other twentieth century federal welfare initiative In the midst of privatization federal budget cuts and suspect nutritional guidelines where even ketchup might be categorized as a vegetable the program remains popular and feeds children who would otherwise go hungry As politicians and the media talk about a national obesity epidemic *School Lunch Politics* is a timely arrival to the food policy debates shaping American health welfare and equality Some images inside the book are unavailable due to digital copyright restrictions
