The Enlightened Shareholder Value Principle and Corporate Social Responsibility Taskin Iqbal, 2021-07-07 The Enlightened Shareholder Value principle and Corporate Social Responsibility are areas of increasing academic and research interest However discussions on the ESV principle in relation to CSR are very limited This book provides a critical analysis of the impact of the concept of ESV embedded in the Companies Act 2006 on CSR and explores the scope for reform Along with analysing existing empirical research it presents the findings of an empirical study conducted to determine whether the concept of ESV is capable of promoting or assisting CSR The book also examines whether implementing an ESV approach has had any impact on the CSR practices of multinational corporations that originate in the UK and operate in developing nations as in order to assess whether the ESV principle links to CSR both its domestic and international impact need to be considered This analysis was undertaken through the lens of a case study on the ready made garment industry in Bangladesh with some focus on the Rana Plaza factory disaster This study also assists in demonstrating the changes that need to be made to improve the current situation Lastly the book addresses the need for reform in the area and provides possible suggestions for reform This interdisciplinary book will be of great interest to students and scholars of corporate law corporate governance and business studies in general as well as policymakers NGOs and government departments in many countries around the world working in the fields of CSR sustainability and global supply chains

Channel 4 annual report Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2010-12-14 For the past three years the Committee has conducted an annual evidence session with the Chairman and Chief Executive of Channel four Television Corporation because as a statutory corporation it is accountable to Parliament for the delivery of its statutory remit This year was a significant moment in Channel 4's history The enactment of the Digital Economy Act at the end of the last Parliament

amended the Communications Act 2003 to give Channel 4 a new and expanded remit and duties A new management team was also put in place The Committee agrees that the Digital Economy Act sets out sensible primary functions for Channel 4 to work towards and that Channel 4 has identified the correct method self reliance to deliver them Aligning all its portfolio of channels in support of these primary functions will not be easy and it is essential that there is adequate external scrutiny of Channel 4 s progress The Committee welcomes recent draft guidance from Ofcom to establish a regime for establishing monitoring reviewing and enforcing public service related obligations for Channel 4 across its network However Ofcom s ability to police Channel 4 s new remit is limited and the Committee is not convinced that Channel 4 is sufficiently accountable for its output outside its core channel The Committee questioned the new management team on its remuneration policy and the size of the final remuneration that outgoing Chief Executive Mr Duncan received The Committee also urges Channel 4 to redouble its efforts to increase the proportion of UK originated commissioning from the nations and regions It proposes that Channel 4 set a medium term target of 15% of network spend on originated programming coming from the nations

Access to Justice and Legal Aid Asher Flynn,Jacqueline Hodgson,2017-01-26 This book considers how access to justice is affected by restrictions to legal aid budgets and increasingly prescriptive service guidelines As common law jurisdictions England and Wales and Australia share similar ideals policies and practices but they differ in aspects of their legal and political culture in the nature of the communities they serve and in their approaches to providing access to justice These jurisdictions thus provide us with different perspectives on what constitutes justice and how we might seek to overcome the burgeoning crisis in unmet legal need The book fills an important gap in existing scholarship as the first to bring together new empirical and theoretical knowledge examining different responses to legal aid crises both in the domestic and comparative contexts across criminal civil and family law It achieves this by examining the broader social political legal health and welfare impacts of legal aid cuts

and prescriptive service guidelines Across both jurisdictions this work suggests that it is the most vulnerable groups who lose out in the way the law now operates in the twenty first century This book is essential reading for academics students practitioners and policymakers interested in criminal and civil justice access to justice the provision of legal assistance and legal aid
