The Barnett formula Great Britain: Parliament: House of Lords: Select Committee on the Barnett Formula, 2009-07-17 The Barnett Formula is the mechanism used by the United Kingdom Government to allocate more than half of total public expenditure in Scotland Wales and Northern Ireland The Formula has been used for the last thirty years to determine the annual increase in allocation the increment Each year these increments are added on to the previous year's allocation the baseline to create what is now a significant block grant of funds The Formula accounted for almost 49 billion of public spending in 2007 08 Despite the political changes within the United Kingdom the Formula has continued to be used and has never been reviewed or revised The Formula was only intended to be a short term measure and should no longer be A UK Funding Commission should be established to assess relative need in the UK's regions and advise on a new method of distributing funding to reflect those needs The baseline has never been reviewed to take account of changing population patterns this means that the grant provides funds without reference to the needs of each of the countries and regions of the UK There should be a link between the grant of funds made to each of the administrations and their actual per capita funding needs The Committee's research suggests that England and Scotland have markedly lower overall needs per head of population than Wales and Northern Ireland The Committee suggest that the UK Funding Commission undertake an assessment of relative need now and in the future and that they undertake periodic reviews as well as publish annual data about the allocation of funding between the devolved administrations

Top Pay in the Public Sector Great Britain: Parliament: House of Commons: Public Administration Select Committee, 2009 This report calls for a Top Pay Commission to name and shame public sector organisations that pay excessive salaries to their top officials The Commission would produce principles and benchmarks to be followed by pay setters and would be able to launch investigations where these were

breached PASC believes a Top Pay Commission would ensure greater coherence to the setting of top pay across the public sector PASC concludes that massive increases in private sector executive salaries over the last ten years have led to smaller but sometimes still very large increases at the top of the public sector This contagion effect has meant that the highest salaries in both sectors have increased much faster than average earnings PASC also identified a number of weaknesses with current arrangements for setting pay in the public sector These include variable levels of transparency tensions between devolved and centralised pay setting systems a perception that some public servants have been rewarded for failure and a tendency for some parts of the public sector to compete against others for a small number of experienced candidates rather than growing talent internally Some of the Committee's other key recommendations include a call for better human resource management across the public sector to ensure talent is promoted from within and failure is not rewarded recommendations that would lead to publication of salaries and bonuses across the public sector more in line with the requirements placed on listed companies and a proposal to ensure all public sector executive reward packages are drawn up either by independent bodies or remuneration committees with a majority of independent members

Annual accountability hearing with Monitor Great Britain: Parliament: House of Commons: Health Committee, 2011-09-14 In this first annual accountability hearing with Monitor the Health Committee welcomes the strengthened role given to the hospital regulator in the approval and regulation of Foundation Trusts The Committee strongly supports the view that the standards for authorizing Foundation Trusts must not fall as a result of the Government's desire to see all remaining NHS Trusts become Foundation Trusts It welcomes the extension of Monitor's oversight powers for Foundation Trusts to 2016 that the powers will then be reviewed and the fact that Monitor's new role as set out in the Health and Social Care Bill has been more clearly defined The Committee believes Monitor has established a reputation as an effective regulator of Foundation Trusts and that it is important to safeguard that hard won reputation That means insisting on the maintenance of a rigorous approvals system It also means maintaining an effective oversight regime in what are likely to be increasingly challenging times Finally following government amendments

to the Health and Social Care Bill which were tabled at Commons Report Stage it means the operation of an effective distress and failure regime for Foundation Trusts **NHS (England) Summarised Accounts** Great Britain.
