

School Uniform Should Not Be Abolished

Good morning to all my friends, imagine if you need to choose which clothes to wear to school every morning so that you will look pleasing to everyone in the school, how will you feel? Would you feel very troublesome? Our school plans to abolish school uniforms and allows students to wear any clothes to school. This issue becomes a talking-point in our school, I am totally against the idea as I think uniforms are totally necessary to build proper school culture. Today, I am here to convince you that school uniforms should not be abolished.

The reasons why school uniforms should remain are because it brings a lot of advantages to students. First, school uniforms promote a sense of belonging and create good school culture. When all the students wear the same uniform, the spirit of learning in school will be uplifted. It shows that the school expects high standards and students respond with better behavior. Wearing school uniforms also can prevent students especially girls from wearing clothes which harsh to the eye such as miniskirt, sexy dress, short pants and so on.

On the other hand, boys can focus on their study if girls wear proper uniforms in school. Besides, equality among students can be maintained in school. No matter what family background are the students having, they will wear the same uniform and the difference between rich and poor is smaller. A student who comes from less fortunate family does not need to worry about being bullied or being disdained in school just because he wears older clothes. Apart from that, students can save their time in the morning to do other things like having breakfast by just simply wearing school uniforms.

This is because they do not have to waste time thinking of what to wear to school and how to decorate themselves by putting some decorations on their clothes. Moreover, school uniforms help students to focus on study instead of fashions and trendy clothes. Futhermore, wearing a uniform helps to prepare students for working in the future. This can help students to adapt with the condition of wearing uniforms to work in the future. People like nurses, doctors, the firemen and the policemen wear uniform as part of their job.

Other working adults also wear suits to work. In conclusion, school uniforms should not be abolished. Reasons are that school uniforms give a sense of belonging to us, maintain equality among students, help students to focus on study and help them to prepare for working in the future. Therefore I urge all of you, my friends, to sign a petition to the school administration board so that they can take into consideration of the benefits of having us, students to wear school uniform. Thank you.

Commissioner of Education USA. Bureau of Education, 1894 **The Sixth: An Essay in Education and Democracy**

William Reid, Jane Filby, 2018-10-03 Developments in educational systems are inextricably linked with the social and political evolution of nations Nowhere is this more clearly to be seen than in the history of the English sixth form Originally published in 1982 this book whose authors had been associated with a number of research projects into 16 19 education traces the tradition of the sixth form from its origins in the public schools of the nineteenth century through to controversies at the time over sixth form and tertiary colleges and the extension of 16 19 education to embrace youth opportunities programmes and other semi vocational courses It shows that the sixth has not only been a significant element in its own right in the adjustment of English society to the challenge of democratic ideals but has also played a key role in the evolution of secondary education from the endowed school of the nineteenth century through the municipal grammar schools set up after the 1902 Education Act to the comprehensive secondary schools of today In fact the fate and future of comprehensive schooling becomes fully understandable only through a study of the sixth form tradition which has shaped the activities of educationists and policy makers over the last hundred years The authors conclude that educational policy making is both facilitated and constrained by the existence of enduring traditions stemming from the past in fact the work of policy making lies precisely in the constructive reinterpretation of that inheritance This book describes and clarifies the nature of the tradition of sixth form education which has been handed down to us and its relation to democratic values and institutions
