Ella Elizabeth Clark

Northern Man The Victor:

Northern Men with Southern Loyalties Michael Todd Landis, 2014-10-29 Michael Todd Landis forcefully contends that a full understanding of the Civil War and its causes is impossible without a careful examination of Northern Democrats and their proslavery sentiments and activities

Man for All Oceans Stan Grayson, 2017-05-16 In June 1898 three years and two months after departing Boston in his aged oyster sloop *Spray* Captain Joshua Slocum made landfall in New England and became the first person ever to sail alone around the world The voyage capped a lifetime of adventure for the indomitable Slocum who had advanced from seaman to captain during the challenging final years of commercial sail surviving hurricanes mutinies shipwreck and the death at sea of his beloved first wife Virginia *Sailing Alone Around the World* Slocum's book about his circumnavigation is a seafaring classic unmatched for adventure and literary verve and has never been out of print since its publication in 1900 Yet despite several biographies over the decades Slocum the man has remained unknowable to his legions of admirers the facts of his life and career as elusive as a ship on a fogbound sea Here is the real story of Slocum's Nova Scotia childhood his seafaring career and how he became an American citizen Grayson gives ample evidence of Slocum's uncanny genius as a navigator while also noting the occasional role that good luck played in his voyages including his odyssey from Brazil to the United States in the self designed and built 35 foot *Liberdade* And Grayson brings a sailor's perspective to Slocum's solo circumnavigation and mysterious disappearance at sea A fascinating appendix compares *Sailing Alone Around the World* with Thoreau's *Walden* and shows that Slocum's simple lifestyle and self sufficiency prefigured today's emphases on the environment and living responsibly Previously unpublished photographs bring Slocum's world to life and detailed maps trace the adventures of a sailor who knew the world like the back of his hand This biography reads like an adventure narrative and will serve as the standard work on Joshua Slocum for years to come

The Romance of Reunion Nina Silber, 2000-11-09 The reconciliation of North and South following the Civil War depended as much on cultural imagination as on the politics of Reconstruction Drawing on a wide range of sources Nina Silber documents the transformation from hostile sectionalism to sentimental reunion rhetoric Northern culture created a notion of reconciliation that romanticized and feminized southern society In tourist accounts novels minstrel shows and popular magazines northerners contributed to a mythic and nostalgic picture of the South that served to counter their anxieties regarding the breakdown of class and gender roles in Gilded Age America Indeed for many Yankees the ultimate symbol of the reunion process and one that served to reinforce Victorian values as well as northern hegemony was the marriage of a northern man and a southern woman Southern men also were represented as affirming traditional gender roles As northern men wrestled with their nation's increasingly global and aggressive foreign policy the military virtues extolled in Confederate legend became more admired than reviled By the 1890s concludes Silber northern whites had accepted not only a newly resplendent image of Dixie but also a sentimentalized view of postwar reunion

The Victor's Crown David Potter, 2012

The Victor's Crown brings to vivid life the signal role of sport in the classical world. Ranging over a dozen centuries from Archaic Greece through to the late Roman and early Byzantine empires, David Potter's lively narrative shows how sport to the ancients was not just a dim reflection of religion and politics but a potent social force in its own right. The passion for sport among the participants and fans of antiquity has been matched in history only by our own time. Potter first charts the origins of competitive athletics in Greece during the eighth century BC and the emergence of the Olympics as a preeminent cultural event. He focuses especially on the experiences of spectators and athletes especially in violent sports such as boxing and wrestling and describes the physiology of conditioning, training techniques and sport's role in education. Throughout we meet the great athletes of the past and learn what made them great. The rise of the Roman Empire transformed the sporting world by popularizing new entertainments particularly gladiatorial combat, a specialized form of chariot racing and beast hunts. Here too Potter examines sport from the perspectives of both athlete and spectator as he vividly describes competitions held in such famous arenas as the Roman Coliseum and the Circus Maximus. The Roman government promoted and organized sport as a central feature of the Empire, making it a sort of common cultural currency to the diverse inhabitants of its vast territory. While linking ancient sport to events such as religious ceremonies and aristocratic displays, Potter emphasizes above all that it was the thrill of competition to those who competed and those who watched that ensured sport's central place in the Greco-Roman world. Vivid and authoritative, Potter skillfully reveals how the gymnasium lay at the heart of Greek life and culture, but his passion is clearly for the Olympics. When Potter moves on to Roman sport, things get livelier still. He meticulously traces the origins, careers and lifestyles of athletes, gladiators and charioteers alike and demolishes some cherished myths along the way. Most gladiatorial combats apparently ended in surrender, not death, although a crowd might well call out *ingula* (kill) running their thousands of thumbs under their throats in the original thumbs up gesture. Fascinating and impressive.
