The Soul-body Problem at Paris Ca. 1200-1250 Magdalena Bieniak, 2010 The soul body problem was among the most controversial issues discussed in thirteenth century Europe and it continues to capture much attention today as the quest to understand human identity becomes more and more urgent What made the discussion about this problem particularly interesting in the scholastic period was the tension between the traditional dualist doctrines and a growing need to affirm the unity of the human being This debate is frequently interpreted as a conflict between the new philosophy conveyed by the rediscovered works of Aristotle and his followers and doctrinal requirements especially the belief in the soul's immortality However a thorough examination of Parisian texts written between approximately 1150 and 1260 leads to surprising conclusions In *The Soul Body Problem at Paris ca 1200 1250* the study and edition of some little known texts of Hugh of St Cher and his contemporaries ranging from Gilbert of
