Perceptions Of Discourse The Revolution In Assumptions:

Perceptions of Discourse: The Revolution in Assumptions Dorothy Naor,2014-12-12 This book was ready to go except for the final editing nearly 14 years ago when suddenly other events entered my life that took all my energy and time Apparently no one else in the interim has touched on the subject Because I was loathe to let 15 or so years of research go to waste and because I think that the history might be interesting and perhaps also useful to others and also because I suddenly realized that I am now in my 80s and would not be around forever I have finally taken time off to publish As for my sources which extend from about the 16th century till the late 1980s I have decided against updating them Those included in these pages serve the purpose of this study which is about a revolution in assumptions about discourse that began in the USA in the 1920s and became the institution in the 1980s in schools universities and in our perceptions of discourse in general The tale in these pages also covers the more important consequences of the revolution Communication in the Jewish Diaspora

Menahem Blondheim,Hananel Rosenberg,2020-09-16 The Jewish diasporic experience stands out in its remarkable scope duration and cohesiveness Communication is the dynamic mechanism that negotiates the interplay of these factors hence this volume on Jewish Diasporic Communications The Jewish Diaspora is unique in another way too through most of their exilic experience Jews did not have a geographical center to which they could orient themselves The perspective guiding this volume is that the center of the Jewish Diaspora has been the communicative network linking its scattered communities in space and the media serving its continuity through historical time This Diasporic network has sustained a common flow of shared content between Jews and Jewish communities let alone the imagination of connectedness Thus Diaspora Jews as Jews and the People they comprise existed to invoke John Dewey in communication The studies in this volume spanning antiquity and modernity and crossing disciplinary boundaries provide together a broad ranging and in depth account of how a People can survive for millennia without a homeland but in communication **A Revolution of Perception?** Ingrid

Gilcher-Holtey,2014-08-01 The year 1968 marked the climax of protests that simultaneously captured most industrialized Western countries The protesters challenged the institutions of Western democracies confronting powerful established parties and groups with an opposing force and public presence that negated traditional structures of institutional authority and criticized the basic assumptions of the post war order Exploring the effects the protest movement of 1968 had on the political social and symbolic order of the societies they called into question this volume focuses on the consequences and echoes of 1968 from different perspectives including history sociology and linguistics **The Revolutionary Rhetoric of**

Garraway,2008 On January 1 1804 Jean Jacques Dessalines declared the independence of Haiti thus bringing to an end the only successful slave revolution in history and transforming the colony of Saint Domingue into the second independent state in the Western Hemisphere The historical significance of the Haitian Revolution has been addressed by numerous scholars but the importance of the Revolution as a cultural and political phenomenon has only begun to be explored Although the path breaking work of Michel Rolph Trouillot and Sibylle Fischer has illustrated the profound silences surrounding the Haitian Revolution in Western historiography and in Caribbean cultural production in the aftermath of the Revolution contributors to this volume argue that while suppressed and disavowed in some quarters the Haitian Revolution nonetheless had an enduring cultural and political impact particularly on peoples and communities that have been marginalized in the historical record and absent from the discourses of Western historiography *Tree of Liberty* interrogates the literary historical and political discourses that the Revolution produced and inspired across time and space and across national and linguistic boundaries In so doing it seeks to initiate a far reaching discussion of the Revolution as a cultural and political phenomenon that shaped ideas about the Enlightenment freedom postcolonialism and race in the modern Atlantic world Contributors A James Arnold University of Virginia Chris Bongie Queen s University Paul Breslin Northwestern University Ada Ferrer New York University Doris L Garraway Northwestern University E Anthony Hurley SUNY Stony Brook Deborah Jenson University of Wisconsin Madison Jean Jonassaint Syracuse University Valerie Kaussen University of Missouri Ifeoma C K Nwankwo Vanderbilt University

Merleau-Ponty's Philosophy Lawrence Hass,2008 A clear and comprehensive introduction to the thought of French philosopher Maurice Merleau Ponty *Discourses and Counter-discourses on Europe* Manuela Ceretta,Barbara Curli,2017-01-12 The European Union plays an increasingly central role in global relations from migration to trade to institutional financial solvency The formation and continuation of these relations their narratives and discourses are rooted in social political and economic historical relations emerging at the founding of European states and then substantially augmented in the Post WWII era Any rethinking of our European narratives requires a contextualized analysis of the formation of hegemonic discourses The book contributes to the ongoing process of rethinking the European project identity and institutions brought about by the end of the Cold war and the current economic and political crisis Starting from the

principle that the present European crisis goes hand in hand with the crisis of its hegemonic discourse the aim of the volume is to rescue the complexity the richness the ambiguity of the discourses on Europe as opposed to the present simplification The multidisciplinary approach and the long term perspective permits illuminating scope over multiple discourses historical periods and different languages including that of the European institutions This text will be of key interest to scholars and students of European Union politics European integration European History and more broadly international relations

Caesarism in the Post-Revolutionary Age Markus J. Prutsch, 2019-10-31 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Debates about the legitimacy and essence of political rule and the search for ideal forms of government have been at the very heart of political thought ever since antiquity Caesarism in the Post Revolutionary Age explores the complex relationship between democracy and dictatorship from the 18th century onwards More concretely it assesses how democracy emerged as something compatible with dictatorship both at the level of political thought and practice Taking Caesarism a political alternative somewhere between democracy and dictatorship as its key concept the book considers To what extent was Caesarism seen as a new post revolutionary form of rule What were the flaws and perils strengths and promises of Caesaristic regimes Can 19th century Caesarism be characterised as a prelude to 20th century totalitarianism What is the legacy and ongoing appeal of Caesarism in the contemporary world This study will be of value to anyone interested in modern political history but also contemporary politics *Revolution and Its Alternatives* Tom Brass, 2018-11-26 Against the usual argument heard most frequently on the left that there is no subject for a radical politics together with its form of political mobilization there is but in the absence of a radical leftist project this subject has in the past transferred and in many instances is still transferring his her support to the radical politics on offer from the other end of the ideological spectrum The combination of on the one hand a globally expanding industrial reserve army generating ever more intense competition in the labour markets of capitalism and on the other the endorsement by many on the left not of class but rather of non class identities espoused by the new populist postmodernism has fuelled what can only be described as a perfect storm politically speaking *Shelley and the Revolutionary Sublime* Cian Duffy, 2005-10-06 Offering a genuinely fresh set of perspectives on Shelley s texts and contexts Cian Duffy argues that Shelley s engagement with the British and French discourse on the sublime had a profound influence on his writing about political change in that age of revolutionary crisis Examining Shelley s extensive use of sublime imagery and metaphor Duffy offers not only a substantial reassessment of Shelley s work but also a significant re appraisal of the sublime s role in the cultural history of Britain during the Romantic period as well as Shelley s fascination with natural phenomena *Popular Rumour in Revolutionary Paris, 1792-1794* Lindsay Porter, 2017-12-19 This book examines the impact of rumour during the French Revolution offering a new approach to understanding the experiences of those who lived through it Focusing on Paris during the most radical years of the Jacobin republic it argues that popular rumour helped to shape perceptions of the Revolution and provided communities

with a framework with which to interpret an unstable world Lindsay Porter explores the role of rumour as a phenomenon in itself investigating the way in which the informal authority of the word on the street was subject to a range of historical and contemporary prejudices Drawing its conclusions from police reports and other archival sources this study examines the potential of rumour both to unite and to divide communities as rumour and hearsay began to play an important role in defining and judging personal commitment to the Revolution and what it meant to be a citizen

Images of Africa Julia Gallagher,2015-05-01 Images of Africa challenges the widely held idea that Africans are powerless in the creation of self image It explores the ways in which image creation is a process of negotiation entered into by a wide range of actors within and beyond the continent in presidents offices and party HQs in newsrooms and rural authorities in rebel militia bases and in artists and writers studies Its ten chapters written by scholars working across the continent and a range of disciplines develop innovative ways of thinking about how image is produced They ask who controls image how is it manipulated and what effects do the images created have for political leaders and citizens and for Africa s relationships with the wider world The answers to these questions provide a compelling and distinctive approach to Africa s positioning in the world establishing the dynamic relational and sometimes subversive nature of image

Revolutionary Bio-politics from Fedorov to Mao Jeff Love,Michael Meng,2023-08-29 This book confronts the question of immortality Is human life without immortality tolerable It

does so by exploring three attitudes to immortality expressed in the context of three revolutions the Soviet the Nazi and the Communist revolution in China The book begins with an account of the radical Russian tradition of immortalism that culminates in the thought of Nikolai Fedorov 1829 1903 then contrasting this account with the equally radical finitism of Martin Heidegger 1889 1976 Both these strands are then developed in the context of modern Chinese philosophical thinking about technology and the creation of a harmonious relation to nature that reflects in turn a harmonious relation to mortality one that eschews the radicality of both Fedorov and Heidegger by discerning a middle way From the Conscious Interior to an Exterior Unconscious David Pavon Cuellar, 2018-04-24 This striking Lacanian contribution to discourse analysis is also a critique of contemporary psychological abstraction as well as a reassessment of the radical opposition between psychology and psychoanalysis This original introduction to Lacan's work bridges the gap between discourse-analytical debates in social psychology and the social theoretical extensions of discourse theory David Pavon Cuellar provides a precise definition and a detailed explanation of key Lacanian concepts and illustrates how they may be put to work on a concrete discourse in this case a fragment of an interview obtained by the author from the Mexican underground Popular Revolutionary Forces EPR Throughout the book Lacanian concepts are compared to their counterparts in psychology Such a comparison reveals insuperable incompatibilities between the two series of concepts The author shows that Lacan's psychoanalytical terminology can neither be translated nor assimilated to the terms of current psychology Among the notions in actual or potential competition with Lacanian concepts the book deals with those proposed by semiology Marxism phenomenology constructionism deconstruction and hermeneutics Taking a stand on those theoretical positions each chapter includes detailed discussion of the contribution of classical approaches to language including Barthes Bakhtin Althusser Politzer Wittgenstein Berger and Luckmann Derrida and Ricoeur There is sustained reference in the body of the text to the arguments of Lacan and Lacanians of Miller Milner Soler and Žižek At the same time in the extensive notes accompanying the text there is a systematic reappraisal and reinterpretation of debates and pieces of research work in social psychology especially in a discursive and critical domain that has incorporated elements of psychoanalytic theory Faces of Revolution Bernard Bailyn, 1992-09-01 Pulitzer Prize winning author Bernard Bailyn brings us a book that combines portraits of American revolutionaries with a deft exploration of the ideas that moved them and still shape our society today
