Chbosky's epistolary novel begins with our anonymous narrator letter writer calling himself Charlie to avoid being identified and recounting a series of events ignited by the mysterious suicide of fellow student Michael Dobson. The letters are addressed to someone who may have known Dobson but who Charlie has not personally met. He chooses the addressee because he hears that the former had decided not to sleep with someone even though they could have. Dobson is a cipher whose death allows Charlie to engage for the first time with his fellow pupils in a compulsory group counselling session held by the school. Dobson was also his only friend in middle school and the wide emotional reaction to his death makes Charlie keenly aware of the hypocritical attitude of the other students. On the cusp of being a freshman, Charlie writes to the unknown figure about his own family and the quiet unspoken grievances he notes between them. Most poignantly, he feels even more isolated by the fact that his older brother and sister are entering into the real world: college and relationships respectively. Privately, Charlie still finds himself missing his Aunt Helen, who had lived briefly with the family during what he recalls as the happiest years of his young life.

The Death and Resurrection of a Coherent Literature Curriculum Sandra Stotsky, 2012-06-16 This book is addressed to teachers who know that the secondary literature curriculum in our public schools is in shambles. Unless experienced and well-read English teachers can develop coherent and increasingly demanding literature curricula in their schools, average high school students will remain at about the fifth or sixth grade reading level where they now are, to judge from several independent sources. This book seeks to challenge education policy makers, test developers, and educators who discourage the assignment of appropriately difficult works to high school students and make construction of a coherent literature curriculum impossible. It first traces the history of the literature curriculum in our middle schools and high schools and shows how it has been diminished and distorted in the past half century. It then offers examples of coherent literature curricula and spells out the cognitive principles upon which coherence is based. Finally, it suggests what English teachers in our public schools could do to develop a literature curriculum that gives all their students an adequate basis for participation in an English-speaking civic culture.
