Title of Paper

The purpose of this paper is twofold: 1) to inform students of MLA Style's formatting and citation guidelines, and 2) to offer students an easy-to-use template to format their own papers. To use this document as a template, simply click "Save As," retitle, and plug in the actual content of your paper (don't forget all the little details like the header and heading). MLA Style refers to two major aspects of your paper: 1) *formatting* and 2) *citations*. *Formatting* refers to how your paper looks: specific rules for margins, spacing, font style, headers, order of information, punctuation—that kind of stuff. *Citation* refers to the ways you share information about your research in the paper itself. Let's first overview formatting guidelines—that's easy—and then move onto the juicier topic of citation.

Every MLA paper contains a header, a heading, a paper title, and the text itself. The header includes the writer's last name and the page number. When you put that information in the header, it automatically populates above every other page. To make Word automatically paginate your paper, click into the Header and then, from the menu bar, select Insert→Page Number→Current Position. Also notice that the first page of the
