The Precocious Child in Victorian Literature and Culture Roisín Laing, 2024-05-06 This book examines representations of precocity in Victorian textual culture canonical literature children's fiction scientific texts and writing by children to argue that precocity challenges the idea of

progress It considers how practitioners of literature and science from Wordsworth to Freud represented human development and the way in which Darwin's non progressive model of evolution troubled the existing model of progression by stages from childhood inexperience to adult maturity and understanding Rois n Laing argues that the precocious child undermines the equation of growth with progress and thereby facilitates other ways of imagining both individual and species development The idea represented by the precocious child in Victorian culture that the adult is not necessarily an improvement on the child the human not necessarily an improvement on the ape still troubles us today **Kipling's Children's Literature** Sue Walsh,2016-04-22 Despite Kipling's popularity as an author and his standing as a politically controversial figure much of his work has remained relatively unexamined due to its characterization as children's literature Sue Walsh challenges the apparently clear division between children's and adult literature and poses important questions about how these strict categories have influenced critical work on Kipling and on literature in general For example why are some of Kipling's books viewed as children's literature and what critical assumptions does this label produce Why is it that Kim is viewed by critics as transcending attempts at categorization Using Kipling as a case study Walsh discusses texts such as Kim The Jungle Books the Just So Stories Puck of Pook's Hill and Rewards and Fairies re evaluating earlier critical approaches and offering fresh readings of these relatively neglected works In the process she suggests new directions for postcolonial and childhood studies and interrogates the way biographical criticism on children's literature in particular has tended to supersede and obstruct other kinds of readings Peter Pan Must Die John Verdon,2014 Helping his former partner to investigate the murder of a politically ambitious real estate developer retired NYPD detective Dave Gurney is targeted by a murderous cop and a Greek assassin I Believe In Peter Pan P.J Cormack,2016-06-16 Devastated by the death of his twin brother Marcus comes to stay with his aunt at her cottage in the rolling English countryside Here he meets the extraordinary five brothers who are George Jack Peter Michael and Nico Here also is the small coughing pipe smoking Scotsman that Marcus firsts learns to call Mr Barrie and then Uncle Jim Long forgotten events come to life as the Past blends with the Future to make the Present But who are the ghosts Is it Uncle Jim George and his brothers or is Marcus himself the ghost Marcus learns that he is not the first person to come to the to the Cotswold countryside to be healed of a terrible loss I Believe in Peter Pan reveals the magical world of J M Barrie and the Llewelyn Davies brothers and brings them back to life again D if only for a short time

Peter Pan, the Lost Child Kathleen Kelley-Laine,2022-10-27 Originally published in 1992 in French as Peter Pan ou l'Enfant Triste the book was translated into English in 1997 and released as Peter Pan The Story of Lost Childhood This new English language version is translated by author Kathleen Kelley Laine and enriched with the addition of an epilogue from the author plus a new foreword from renowned psychoanalyst Jonathan Sklar Peter Pan young innocent and heartless with his baby tooth smile is one of the most popular heroes of fiction of both children and adults for over one hundred years The author explores this mythical figure both as a story as well as a metaphor revealing the hidden traumas and psychological

conundrums of this *Lost Child* The evocative and lyrical style takes the reader through multiple levels of understanding of this seemingly simple fairy tale into the tragic story of its author J M Barrie and of other Peter Pans who never grow up In *Peter Pan the Lost Child* psychoanalyst Kathleen Kelley Laine explores Peter Pan's light hearted escapades and uncovers a sad lost child behind the baby tooth smile She uses the story as a framework for the stories of her patients to show how their own Peter Pan manifests giving a unique insight into how childhood events can block growth into adulthood She also investigates the sinister side of author James Mathew Barrie as it relates to his Peter Pan tale and addresses her own family history and its links to *The Boy Who Would Not Grow Up* Little by little as the book progresses Kelley Laine's lost childhood emerges as a child who fled with her family from war torn Hungary after the Second World War to the promised land of Canada These three interwoven storylines take the reader on a literary journey to uncover secrets and hidden emotions Kelley Laine makes clear that the child who cannot grow up the Peter Pan raging inside the adult needs to be heard and understood Only then can that lost child have a chance to find the road to maturity

The Peter Pan Syndrome Gillian Lyden, 2010-03-23 Thinking about the recent discoveries about genetics I wondered what it might be like if governments decided to control how long we should live The aspect I chose is about increasing our lifespan but I know there is another side to this which is rather more sinister My story is set in the future where Gene Control apparently sets the ground rules in every country and civilisation in most areas is confined to huge domes with artificial weather systems Health both physical and mental is dealt with by the Government of each civilisation if necessary by altering peoples genes Should anything go wrong with genetic interference it is not unusual for people to disappear There are rebels who hate being controlled Some have escaped to Outside where plants grow uncontrolled and which is thought to be lawless backward and uncivilised However a majority of residents love the controlled weather system which never interferes with pleasurable activities it rains only at night has a moon sun and stars which appear to revolve around the system a crop growing facility and farming including horses cows poultry orchards etc People can live as long as they like for hundreds of years if desired and children can stay as children for as long as they and their parents wish There are robots for servants there is an education system and hospitals etc etc everything you could wish for However not everyone is happy with the situation the children in particular The story is about one family in particular Katie and Ian Stone their children Michael and Sarah and their experiences in and out of Gene Control
