Swedish weaving also known as Huck embroidery. It takes crafters through the techniques used to create projects from simple bookmarks to jar cozies, table runners, decorative towels, gift bags and even an afghan. Once embroiderers get started with this fun technique, they won't want to stop. This wonderful traditional craft is experiencing a resurgence in popularity and is being used to make all kinds of beautiful projects to decorate the home or to give as gifts that will be treasured for a lifetime. **Textile Chemicals** Katia Lacasse, Werner Baumann, 2004. This data and factbook contains state of the art information on the environmental aspects of 2 500 chemicals currently used in the textile industry worldwide. The authors have worked closely with industrial practitioners and managers of textile plants to ensure that only state of the art science and technology are included. The texts preceding the extended tables present comprehensive overviews of the processes presently in use as well as of important and relevant governmental regulations. The data sheet for each chemical spans carefully selected relevant environmental and production related data. In addition, textile engineers and specialists involved in the risk assessment and control of these chemicals will find that the overviews given on each chemical, its field of application and its function in production processes make this volume a valuable tool for their frequent reference.

Making Silk Flowers Anne Tomlin, 2023-11-27. This beautiful book explains the art and craft of making the most natural looking silk botanicals. With clear step by step sequences, it considers the details of flowers and demonstrates how you can make immaculate interpretations from a range of silk and millinery fabrics. Anne Tomlin, a passionate and renowned silk flower making specialist, generously shares her ideas and techniques so this intricate practice can be enjoyed by all milliners, textile artists and designers. Encourages forensic observation of the structures and colours of individual flowers. Gives instructions on techniques including how to paint with dyes and mix colours, stiffen silk and shape petals and leaves. Explains how to capture the detail and essence of more than thirty flowers from the tiniest common daisy to the complex tightly pleated English rose. Features over 400 beautiful illustrations including templates for each flower. This book studies a variety of flowers and shows how to recreate them in silk using unique and individual techniques. Inspired by flowering blooms, it encourages experimentation and problem solving to discover sympathetic methods of making silk flowers to immortalise their fleeting beauty. It explains how to capture the personalities that make each of these flowers individual, encouraging you to
