the ratio of fat to protein to carbs accordingly As per the Keto diet your daily diet should include a higher amount of fat a moderate amount of protein and a low percentage of carbs While several people claim that diets are not the best way forward to losing weight it is only because they tried and failed The reason for them failing is not the diet but infact it is because they don t begin the diet on the right note or are unable to maintain the balance in what they eat or drink and hence the diet they should have been on turns into a disaster for them
