and become more connected with the local produce available in your area Turn off the blender unplug the food processor and develop an intimate relationship with the farms around you A tomato fresh from the garden or a newly picked head of lettuce is already delicious on its own and the recipes in this book focus on combining those flavors into a new experience Food preparation done in this way becomes an exciting journey of natural discovery and we hope that you will find delight in allowing the organic fruits and vegetables available to you to shine brightly through the simplicity of these recipes This book includes the following recipes Burger Spaghetti Tacos Vegetable stew Sausage Corn chowder Gobi matar Dahl Bread Tuna salad Chili Hummus BBQ loaf Puacamole and 6 low fat raw vegan condiments
