Microsoft Windows Server 2003, 2003 *Securing Citrix XenApp Server in the Enterprise* Tariq Azad, 2008-08-08 Citrix Presentation Server allows remote users to work off a network server as if they weren't remote That means Incredibly fast access to data and applications for users no third party VPN connection and no

latency issues All of these features make Citrix Presentation Server a great tool for increasing access and productivity for remote users Unfortunately these same features make Citrix just as dangerous to the network it s running on By definition Citrix is granting remote users direct access to corporate servers achieving this type of access is also the holy grail for malicious hackers To compromise a server running Citrix Presentation Server a hacker need not penetrate a heavily defended corporate or government server They can simply compromise the far more vulnerable laptop remote office or home office of any computer connected to that server by Citrix Presentation Server All of this makes Citrix Presentation Server a high value target for malicious hackers And although it is a high value target Citrix Presentation Servers and remote workstations are often relatively easily hacked because they are often times deployed by overworked system administrators who haven t even configured the most basic security features offered by Citrix The problem in other words isn t a lack of options for securing Citrix instances the problem is that administrators aren t using them eWeek October 2007 In support of this assertion Security researcher Petko D Petkov aka pdp said in an Oct 4 posting that his recent testing of Citrix gateways led him to tons of wide open Citrix instances including 10 on government domains and four on military domains The most comprehensive book published for system administrators providing step by step instructions for a secure Citrix Presentation Server Special chapter by Security researcher Petko D Petkov aka pdp detailing tactics used by malicious hackers to compromise Citrix Presentation Servers Companion Web site contains custom Citrix scripts for administrators to install configure and troubleshoot Citrix Presentation Server
