1. Introduction

This document contains the system requirements for ***project name***. These requirements have been derived from several sources, including ***brief listing of most important sources***.

1.1 Purpose of This Document

This document is intended to guide development of ***project name***. It will go through several stages during the course of the project:

- 1. Draft:** The first version, or draft version, is compiled after requirements have been discovered, recorded, classified, and prioritized.
- 2. Proposed:** The draft document is then proposed as a potential requirements specification for the project. The proposed document should be reviewed by several parties, who may comment on any requirements and any priorities, either to agree, to disagree, or to identify missing requirements. Readers include end-users, developers, project managers, and any other stakeholders. The document may be amended and re-proposed several times before moving to the next stage.
- 3. Validated:** Once the various stakeholders have agreed to the requirements in the document, it is considered validated.
- 4. Approved:** The validated document is accepted by representatives of each party of stakeholders as an appropriate statement of requirements for the project. The developers then use the requirements document as a guide to implementation and to check the progress of the project as it develops.

1.2 How to Use This Document

We expect that this document will be used by people with different skill sets. This section explains which parts of this document should be reviewed by various types of readers.

Types of Reader

In this section, list the different types of reader this document is aimed at. For example, Flash programmers, graphic designers, end-users, project managers, etc. For each type of reader, clearly state which sections are most pertinent to them, and which may be safely skipped.

Technical Background Required

Describe here the technical background needed to understand the document in general, and any particular expertise or understanding that is needed for specific sections.

Overview Sections

List here the sections that should be read by someone who only wishes to gain an overall understanding of the project, or which should be read first before technical requirements are reviewed.
