Spectroscopic Methods for Nanomaterials Characterization Sabu Thomas,Raju Thomas,Ajesh K Zachariah,Raghvendra Kumar Mishra,2017-05-19 Nanomaterials Characterization Techniques Volume Two part of an ongoing series offers a detailed analysis of the different types of spectroscopic methods currently being used in nanocharacterization These include for example the Raman spectroscopic method for the characterization of carbon nanotubes CNTs This book outlines the different kinds of spectroscopic tools being used for the characterization of nanomaterials and discusses under what conditions each should be used The book is intended to cover all the major spectroscopic techniques for nanocharacterization making it an important resource for both the academic community at the research level and the industrial community involved in nanomanufacturing Explores how spectroscopy and X ray based nanocharacterization techniques are applied in modern industry Analyzes all the major spectroscopy and X ray based nanocharacterization techniques allowing the reader to choose the best for their situation Presents a method orientated approach that explains how to successfully use each technique

Microscopy Methods in Nanomaterials Characterization Sabu Thomas,Raju Thomas,Ajesh K Zachariah,Raghvendra Kumar Mishra,2017-05-17 Microscopy Methods in Nanomaterials Characterization fills an important gap in the literature with a detailed look at microscopic and X ray based characterization of nanomaterials These microscopic techniques are used for the determination of surface morphology and the dispersion characteristics of nanomaterials This book deals with the detailed discussion of these aspects and will provide the reader with a fundamental understanding of morphological tools such as instrumentation sample preparation and different kinds of analyses etc In addition it covers the latest developments and trends morphological characterization using a variety of microscopes Materials scientists materials engineers and scientists in related disciplines including chemistry and physics will find this to be a detailed method orientated guide to microscopy methods of nanocharacterization Takes a method orientated approach that includes case studies that illustrate how to carry out each characterization technique Discusses the advantages and disadvantages of each microscopy characterization technique giving the reader greater understanding of conditions for different techniques Presents an in depth discussion of each technique allowing the reader to gain a detailed understanding of each

Handbook of Advanced Biomass Materials for Environmental Remediation Sabu Thomas,Cintil Jose Chirayil,Rini Thresia Varghese,2024-08-10 This book explores the functional materials derived from biomass for environmental remediation applications It covers different sources of biomass its classification production and various functional materials that are derived from them and suitable for energy production Various topics covered in this book include classification of biomass conversion and utilization techniques functional materials different applications in environmental remediation biofuels and many more This book is highly useful for students researchers and professionals working in the field of materials and environmental science

Handbook of

Biomass Sabu Thomas, Mahesh Hosur, Daniel Pasquini, Cintil Jose Chirayil, 2024-05-31 This handbook constitutes state of the art research covering topics such as chemical constituents of biomass their specific properties characterization and different applications The contents also discuss challenges and issues involved in its applications This volume brings together a number of biomass derived potential renewable elements and its circular economy approach in one place The content includes industrial applications and fills the gap in laboratory research works to practical applications in related industries The book gives an insight towards the circular economy approach by the biomass different gross morphologies of biomasses and the valuable chemical constituents that can be derived from the biomass and moreover the potential applications of all those constituents It enables researchers and scientists to get informed of the designs to improve existing utilization of biomass in an efficient manner and deliver better products at lower cost The volume is useful reference for professionals researchers industrial practitioners graduate students and senior undergraduates in the fields of polymer science bioscience and bioengineering It also provides an in depth reference for biomass processors and fabricators and for industry sectors utilizing biomass such as packaging sensors film manufacturers medical device manufacturers and biomedical engineers

Gaining Insight Into User and Search Engine Behaviour by Analyzing Web Logs Jeeva Jose, P. Sojan Lal, 2016-11 Web Usage Mining also known as Web Log Mining is the result of user interaction with a Web server including Web logs click streams and database transaction or the visits of search engine crawlers at a Website Log files provide an immense source of information about the behavior of users as well as search engine crawlers Web Usage Mining concerns the usage of common browsing patterns i.e. pages requested in sequence from Web logs These patterns can be utilized to enhance the design and modification of a Website Analyzing and discovering user behavior is helpful for understanding what online information users inquire and how they behave The analyzed result can be used in intelligent online applications refining Websites improving search accuracy when seeking information and lead decision makers towards better decisions in changing markets for instance by putting advertisements in ideal places Similarly the crawlers or spiders are accessing the Websites to index new and updated pages These traces help to analyze the behavior of search engine crawlers The log files are unstructured files and of huge size These files need to be extracted and pre processed before any data mining functionality to follow Pre processing is done in unique ways for each application Two pre processing algorithms are proposed based on indiscernibility relations in rough set theory which generates Equivalence Classes The first algorithm generates a pre processed file with successful user requests while the second one generates a pre processed file for pre fetching and caching purposes Two algorithms are proposed to extract usage analytics The first algorithm identifies the origin of visits the top referring sites and the most popular keywords used by the visitor to arrive at a Website The second algorithm extracts user agents like browsers and operating systems used by a visitor to access a Website In this study clustering of users based on Entry Pages to a Website is done to analyze the deep linked traffic at a Website The Top Ten

Entry Pages the traffic and the temporal information of the Top Ten Entry Pages are also studied ONE HUNDRED YEARS OF THE WASTE LAND Dr. Muralikrishnan T.R., Dr. Jyothimol.P, Dr. Rajesh.M, Mr. Vishnu N , 2023-08-24 One of the remarkable qualities of The Waste Land is its ability to resonate across time and space transcending cultural and historical boundaries As we mark its centenary it is fitting that we take stock of the poem's continued relevance in our contemporary world The contributors to this anthology guide us through the labyrinthine paths of The Waste Land highlighting its capacity to speak to our own spiritual dilemmas anxieties and yearnings
