Research Paper On Architecture:

ARO: Architecture Research Office Stephen Cassell, Adam Yarinsky, Architecture Research Office, 2003-02-28 The process of investigation analysis and testing makes Architecture Research Office ARO as much a laboratory as a design firm For Stephen Cassell Adam Yarinsky and their team the starting point of each commission is not the development of an abstract idea for the project but an intensive hands on occupation with a project s conditions with its physical economic and social contexts This practical approach to making architecture to shrinking the distance between thinking and building is much evident in their work which manages to be simultaneously thoughtful and sensual The seven projects featured in this the first monograph on the work of this firm range from self directed research ARO s paper wall project to private living spaces the SoHo Loft to commercial interiors the Qiora Store and Spa to the popular U S Armed Services Recruiting Station in Times Square to the stunning Colorado House in Telluride All of these projects challenge design conventions while delighting the senses with their unusual materials careful detailing and unexpected spatial discoveries With essays by Stan Allen Philip Nobel Guy Nordenson and Sarah Whiting BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Work-Life Balance in Architecture Igea Troiani, 2024-03-04 This book seeks to improve the work lives of architects of diverse demographics who do not fit or want to replicate the traditional 24/7 white male architect lifestyle. Aimed at a workforce whose life and career expectations have changed drastically in recent years, it helps readers of different generations to make informed choices about their careers, enabling students, educators, and professionals to prioritise wellbeing and offer their design and practice voice to enhance a built environment for all. *Work-Life Balance in Architecture* examines what it means to play the game of architecture, to choose to study and pursue a career in architecture rather than another profession. The book shows the economic, social, and professional structures within which architectural education and practice operate and reveals the impact of a corporate neoliberal big business mentality on wellbeing. After setting out the context exacerbating work-life imbalance, the book discusses the paths an architect may take, whether this leads to a career in practice or not in architecture at all, and how alternative gameplay moves can advantage or disadvantage those of different gender, class, ethnicity, race, or age at different career stages. It concludes by examining how the places in which an architect works, the time available to work, and critiques of perpetual neoliberal economic growth can enhance the lives of all architects today.

The Architecture Annual 2006-2007. Delft University of Technology, 2008 The themes of this Architecture Annual focus on how the materials, design, construction, and running of a building can affect the environment.

TELECOMMUNICATION SYSTEMS AND TECHNOLOGIES-Volume II Paolo Bellavista, 2009-10-17 Telecommunication Systems and Technologies theme is a component of Encyclopedia of Physical Sciences Engineering and Technology. Resources in the global Encyclopedia of Life Support Systems (EOLSS) which is an integrated compendium of twenty-one Encyclopedias. Telecommunication systems are emerging as the most important infrastructure asset to enable business, economic opportunities, information distribution, culture dissemination, and cross-fertilization and social relationships. As any crucial infrastructure, its design, exploitation, maintenance, and evolution require multi-faceted know-how and multi-disciplinary vision skills. The theme is structured in four main topics: Fundamentals of Communication and Telecommunication Networks; Telecommunication Technologies; Management of Telecommunication Systems Services; Cross-Layer Organizational Aspects of Telecommunications, which are then expanded into multiple subtopics, each as a chapter. These two volumes are aimed at the following five major target audiences: University and College students; Educators; Professional practitioners; Research personnel; and Policy analysts, managers, and decision makers, and NGOs.

Design and Development of Knowledge Management for Manufacturing K. Ganesh, Sanjay Mohapatra, S. Nagarajan, 2013-11-19 This book examines the modules and elements required before implementing knowledge management solutions in typical manufacturing and service industry. The objective is to develop a framework, design, and model suitable for all requirements and a strategy to properly implement. Related case studies from organizations are included with the results provided to use as a solution to problems experienced when implementing knowledge management in the industry. Implementing a knowledge management system can be complex.

and dynamic no matter how well planned and developed Inevitably a degree of organizational inertia is focused on the current state rather than the new Within an enterprise personal and group involvement and interests process status and technology landscape can deflect the commitment needed to successfully implement such a system Cumulative evidence from past research in knowledge management suggests that effective implementation of KM solution in any organization requires a robust designs and models for various critical elements of process people and technology Using the techniques provided in this book readers should be able to design knowledge management strategies to align objectives of the KM initiatives with their business goals
