

Thesis of the essay: It is important to ask for feedback on your papers because other people can help you clarify ideas and encourage you about the strengths of your writing.

Topic sentence refers to thesis and introduces the paragraph's topic

Example from personal experience

Expert opinion

Closing

Body paragraph: One reason to get feedback on your writing is that another reader can help you clear up parts of your paper that don't make sense. In our own writing, sometimes things that are completely clear to us might confuse our readers. For example, I recently wrote a paper about the benefits of eating home-cooked meals, and I dropped in the word "braise" without much context. When a classmate of mine read the paper, he didn't know what the word meant, so I added a brief definition when I revised the paper. His feedback helped me clarify something that likely would have been confusing to many of my readers. **Feedback for clarity is so important that Smith (2016) even suggested that "the absolute best way" to get a better grade on a paper is to start by simply asking a couple readers to note any questions that they have when they read your paper (p. 1).** The importance of getting feedback can't be overstated.

Research Paper Paragraphs

Stephen Edwards

Research Paper Paragraphs:

The Art and Architecture of Academic Writing Patricia Prinz, Birna Arnbjörnsdóttir, 2021-08-15 This book is a bridge to confident academic writing for advanced non native English users It emphasizes depth over breadth through mastery of core writing competencies and strategies which apply to most academic disciplines and genres Tailored to students in EMI programs the content was piloted and revised during a longitudinal writing study The innovative approach prepares students to write for the academic community through the dual lenses of Art developing a writer s voice through choices in language style and topics and Architecture mastering norms of academic language genre and organization The user friendly text maximizes time for writing practice and production by avoiding lengthy readings Part 1 builds skills and confidence in writing by focusing on assignments that do not require research Part 2 applies newly mastered principles skills and strategies to research based writing Students learn to incorporate thesis research and evidence into a process for academic writing by following the AWARE framework Arranging to write Writing Assessing Revising and Editing **50 Plus One**

Ways to Improve Your Study Habits Stephen Edwards, 2006-08 Whether preparing to take the SATs or trying to finish your graduate degree in the evenings 50 plus one Ways to Improve Your Study Habits is a must Everyone who is trying to improve their academic standing needs help and this easy to use book with handy practical tips is just the ticket Learn the importance of regular study time create a study environment that is free of distractions and learn the importance of personal organization Learn to learn by using the limited amount of time you have more effectively You will learn the essentials of good study habits time management how to set priorities schedule study time when you are at your peak how to create the proper study environment how to design a self motivated reward system how to remove pressure when studying and much more A perfect gift for every student regardless of age or educational level **How to Write Better Medical Papers**

Michael Hanna, 2019-03-20 This book guides medical researchers through all stages of transforming their scientific data and ideas into a published paper Many researchers in medicine including the life sciences and health sciences struggle to get their research written and published Manuscripts are typically rejected and or sent back for revisions several times before ever being published One reason for this is that researchers have not received much instruction in the specific subjects and skills needed to write and publish scientific medical papers research methodology ethics statistics data visualization writing revising and the practicalities of publishing Instead of wasting the reader s time discussing trivialities of punctuation spelling etc this book tackles all the major scientific issues that routinely lead to manuscripts getting rejected from the journals The section Preparing covers the range of methodological ethical and practical aspects that researchers need to address before starting to write their paper The section Analyzing reviews commonplace problems in the statistical analysis and presentation and how to resolve those problems The section Drafting describes what to write in all the various parts of a paper the Introduction Methods Results Discussion Abstract etc The section Revising explains and illustrates how to improve

the writing style of any manuscript The section Publishing discusses how to navigate the peer review process and all other practical aspects of the publishing phase This book draws on the author s decade of experience as an independent medical writer and research consultant but it is not written merely as the personal opinion of yet another expert The entire book is grounded in the existing scientific and scholarly literature with extensive references and a lengthy annotated bibliography so readers can quickly obtain more information on any aspect they want Thus this book provides a more evidence based scholarly account of how medical scientific papers should be written in order to improve medical communication and accelerate scientific progress After reading this entire book cover to cover medical researchers will know how to write better quality medical papers and they will be able to publish their work in better journals with less time and struggle This book is essential reading for anyone conducting research in clinical medicine life sciences or health sciences
