Social Housing, Disadvantage, and Neighbourhood Liveability Michelle Norris, 2013-11-12 In a groundbreaking longitudinal study researchers studied seven similar social housing neighbourhoods in Ireland to determine what factors affected their liveability In this collection of essays the same researchers return to these neighbourhoods ten years later to see what's changed Are these neighbourhoods now more liveable or leaveable Social Housing Disadvantage and Neighbourhood Liveability examines the major national and local developments that externally

affected these neighbourhoods the Celtic tiger boom area based interventions and reforms in social housing management Additionally the book examines changes in the culture of social housing through studies of crime within social housing changes in public service delivery and media reporting on social housing Social Housing Disadvantage and Neighbourhood Liveability offers a new body of data valuable to researchers in Ireland and abroad on how to create more equitable and liveable social housing

The Best Place Danya Fast, 2023-11-10 In both local and international imaginations Vancouver Canada is often celebrated as one of the world's most beautiful cosmopolitan and livable cities Simultaneously the city continues to be ground zero for successive waves of public health emergency and intervention including a recent and unprecedented drug overdose crisis driven by the proliferation of illicitly manufactured fentanyl and related analogs in the local drug supply In The Best Place Addiction Intervention and Living and Dying Young in Vancouver Danya Fast explores these politics of place from the perspectives of young people who use drugs Those who are the subject of this book were in many ways relegated to the social spatial and economic margins of the city Yet they were also often at the very center of city life and state projects including the project of protecting life in the context of the current overdose crisis

Crafting Innovative Places for Australia's Knowledge Economy Edward J. Blakely, Richard Hu, 2019-01-07 This book integrates planning policy economics and urban design into an approach to crafting innovative places Exploring new paradigms of innovative places under the framework of globalisation urbanisation and new technology it argues against state centric policies to innovation and focuses on how a globalized approach can shape innovative capacity and competitiveness It notably situates the innovative place making paradigm in a broader context of globalisation urbanisation the knowledge economy and technological advancement and employs an international perspective that includes a wide range of case studies from America Europe Asia and Australia Developing a co design and co creation paradigm that integrates governments the private sector and the community into shared understanding and collaborative action in crafting innovative places it discusses place based innovation in Australian context to inform policy making and planning and to contribute to policy debates on programs of smart cities and communities

Geographies of the Super-rich Iain Hay, 2013-01-01 Globalization it seems has propelled the world's uber wealthy to new heights of power and money with tremendous repercussions for the other 99.9 percent of us At a time when neoliberalism has propelled the world into a new Gilded Age with rising inequality everywhere an aggressive class war being waged by the wealthy and billionaires inserting themselves bluntly into the political arena understanding the behavior and spatiality of the super rich has acquired a pressing urgency This volume offers a richly textured suite of essays concerning how the super rich have restructured local places transforming landscapes as varied as London and Kentucky Ireland and St Barts as well as domains as varied as art thoroughbred horses and housing Barney Warf University of Kansas US The world's super rich made up of just 11 million people have access to about US 42.0 trillion of wealth These are people who each have a spare million of liquid wealth Their wealth is roughly equal to two thirds of global GDP They own most of

everything As the editor of this books states library shelves and the pages of journals remain largely devoid of geographical work on the super rich a startling lacuna this volume sets out to fill The super rich now own most of the planet During the last year their share fell slightly Times may be changing Now is the time to begin to study the super rich in detail especially if you are worried about where all the wealth has gone Danny Dorling University of Sheffield UK This timely and path breaking book brings together a group of distinguished and emerging international scholars to critically consider the geographical implications of the world s super rich a privileged yet remarkably overlooked group Emerging from this unique collection is an enlightening picture of the influence of the super rich over a diverse range of affairs extending from the shape of urban and rural landscapes to the future of art history By concentrating on those at the apex of the economic pyramid this book provides valuable insights to the institutions practices and cultural values of our society as well as allowing us a more comprehensive view of the consequences of global capitalism Presenting case studies from across the globe from Singapore to St Barts London to Lexington the spatial and cultural span of the book is wide ranging and diverse This truly unique book will prove a fascinating read for academics researchers and students in the fields of geography regional and urban studies sociology political science and development studies

Small Town Sustainability Paul Knox, Heike Mayer, 2012-11-05 In an era in which the individuality and vitality of small towns are under threat from globalization and city planning discussions tend to center on topics like metropolitan regions megaregions and global cities the authors of this volume see a need to reflect critically on the potential of small towns They show how small towns can meet the challenge of a fast paced globalized world and they use case studies to introduce movements programs and strategies capable of effectively promoting local cultures traditions identities and sustainability Small towns often play critical roles in regional economic systems When small towns focus on their specific characteristics and take advantage of their opportunities they can become stable niches within regional national and global economies and take on an important role in shaping a sustainable future In einer Zeit in der der Prozess der Globalisierung die Besonderheiten kleiner St dte und ihre Vitalit t bedroht und in der sich die meisten stadtplanerischen Diskussionen um Themen wie Metropolregionen oder Mega Regionen und Weltst dte drehen sehen die Autoren die Notwendigkeit das Potenzial kleiner Ortschaften kritisch zu reflektieren Sie veranschaulichen wie Kleinst dte die Herausforderung einer schnelllebigen und globalisierten Welt annehmen k nnen und stellen anhand von Fallbeispielen Bewegungen Programme und Strategien vor die rtliche Kulturen Traditionen Identit ten und Nachhaltigkeit effektiv zu f rdern wissen Kleinst dte spielen oftmals eine entscheidende Rolle innerhalb regionaler Wirtschaftssysteme Wenn Kleinst dte sich auf ihre spezifischen Eigenschaften konzentrieren und ihre M glichkeiten nutzen k nnen sie zu stabilen Nischen in regionalen nationalen und globalen konomien werden und wesentlich dazu beitragen eine nachhaltige Zukunft zu gestalten

The Wiley-Blackwell Encyclopedia of Urban and Regional Studies Anthony M. Orum, 2019-04-15 Provides comprehensive coverage of major topics in urban and regional studies Under the guidance of Editor in Chief Anthony Orum

this definitive reference work covers central and emergent topics in the field through an examination of urban and regional conditions and variation across the world It also provides authoritative entries on the main conceptual tools used by anthropologists sociologists geographers and political scientists in the study of cities and regions Among such concepts are those of place and space geographical regions the nature of power and politics in cities urban culture and many others The Wiley Blackwell Encyclopedia of Urban and Regional Studies captures the character of complex urban and regional dynamics across the globe including timely entries on Latin America Africa India and China At the same time it contains illuminating entries on some of the current concepts that seek to grasp the essence of the global world today such as those of Friedmann and Sassen on global cities It also includes discussions of recent economic writings on cities and regions such as those of Richard Florida Comprised of over 450 entries on the most important topics and from a range of theoretical perspectives Features authoritative entries on topics ranging from gender and the city to biographical profiles of figures like Frank Lloyd Wright Takes a global perspective with entries providing coverage of Latin America and Africa India and China and the US and Europe Includes biographies of central figures in urban and regional studies such as Doreen Massey Peter Hall Neil Smith and Henri Lefebvre The Wiley Blackwell Encyclopedia of Urban and Regional Studies is an indispensable reference for students and researchers in urban and regional studies urban sociology urban geography and urban anthropology

Industrial Transition Martina Fuchs, 2016-05-23 Recently the international division of labour in industrial production has grown increasingly more volatile The separation between high end tasks undertaken in the traditional core economies and low end tasks undertaken in newly emerging economies has become increasingly blurred The new dynamics and unpredictability of actor and process configurations in internationalized production bring new challenges for research in economic geography regional economics and management sciences The allocation of R and how can regional resilience and response capacities be built and enhanced

Evolutionary Economic Geography Dieter Kogler, 2017-10-02 Economic geographers increasingly consider the significance of history in shaping the contemporary socio economic landscape and increasingly believe that experiences and competencies acquired over time by individuals and entities in particular localities to a large degree determine present configurations as well as future regional trajectories Attempts to trace understand and investigate the pathways from past to present have given rise to the thriving and exciting sub field of Evolutionary Economic Geography EEG EEG highlights the important factors that initiate inhibit or consolidate the contextual settings and relationships in which regions and their respective agents which comprise and shape economic activity and social reproduction change over time It has at its core the production and destruction of novelty in space and the links between innovation and regional economic fortunes The creation of knowledge its movement and recombination within different regional ensembles of economic agents and institutions plays a critical role in the evolution of the space economy EEG provides a framework to disentangle the complexity of technological change and regional economic development based on a

variety of theoretical and methodological approaches In only a short time EEG has established itself as a promising and rapidly evolving research framework with its focus on the driving forces of regional development across various scales and its attempt to translate findings into public policy This book advances the theoretical foundations of EEG and demonstrates how EEG utilises and operationalises conceptual frameworks both established and new Contributions also point to future research avenues and extensions of EEG attempting to build stronger ties between theory empirical evidence and relevance to policy

This book was originally published as a special issue of Regional Studies **Bangladesh** Elisa Muzzini, Gabriela

Aparicio, 2013-04-11 Bangladesh seeks to attain middle income status by 2021 To accelerate growth enough to do so

Bangladesh needs to build a competitive urban space that is innovative connected and livable This book identifies what is unique about Bangladesh's process of urbanization and examines the implications for economic growth **Jacaranda**

Senior Geography 1 for Queensland Units 1&2, 3e learnON & Print Bill Dodd, 2024-12-31 **Heritage and the City:**

Values and Beyond Husam R. Husain, 2022-08-01 HAVE WE VALUED OUR CITIES ENOUGH Values bind us together which makes our communities stronger and united Communities are built upon our tolerance and understanding of the value of our ties and ties pave our cities towards a bright future The structure of this book is constructed around the concept of value It contains a collection of readings about the Challenges we face in Cities Culture and Heritage The book is divided into three Parts The first part focuses on aesthetical values the second contains articles on cultural values in cities and the third part is a specialized theme on water values and urban areas Collectively the 12 chapters discuss findings approaches methodologies and provide new ways of understanding values in old and new cities This collection of essays and contributors is concerned with underlying issues such as architectural values heritage and the city urban identity conservation and preservation water values and climate issues Each part contains several chapters to enable cross reference and comparison This book is a useful collection of academic resource which discusses some questions and issues that cities have to face
