

SO YOU'RE IN A SPOT OF TROUBLE.

Well, that wasn't the best and you sure didn't get the best—yet have faith and keep your back up—whether you make it out alive or not, we largely blame that to you, your attitude and your actions.

Oh, first things first, **RELAX!** Take a deep breath and keep a clear head. The mistake that more people make in life-or-death situations is getting their priorities wrong. There, before you act. The phrase I use to remind myself is, *Remember What's First: PROTECTION, RESCUE, WATER, FOOD.* These are the absolute basics you need to survive, and survival now needs to become your number one goal. So here we go—down to business.

PRIORITIES OF SURVIVAL

POCKET GUIDE

PROTECTION

Whether it's from the elements, animals, or human threats, **PROTECTION** is your number one priority in a survival situation.

FIRE

Fire will provide you with heat, light, comfort and protection. There are many ways to light your tinder, a lighter, matches, fire starter or even batteries being the easiest options, but not the only—even if it's your last.

Choose the location for your fire wisely, taking proximity to the wind and wind direction being the most important considerations. Build a base of green branches if the ground is wet, or dig it out to protect it if it's windy. A fire requires three ingredients: Oxygen, Fuel and Heat. Gather your fuel before you attempt to start your fire. Look for wood that is off the ground to ensure you have a source of it being dry, look for dead

Drill and Bow

Fire Sa
