**Wartime Captivity in the 20th Century** Anne-Marie Pathé, Fabien Théofilakis, Helen McPhail, 2016-08-01 Long a topic of historical interest wartime captivity has over the past decade taken on new urgency as an object of study Transnational by its very nature captivity's historical significance extends far beyond the front lines ultimately inextricable from the histories of mobilization nationalism colonialism law and a host of other related subjects This wide ranging volume brings together an international selection of scholars to trace the contours of this evolving research agenda offering fascinating new perspectives on historical moments that range from the early days of the Great War to the arrival of prisoners at Guantanamo Bay

**The Franco-Algerian War through a Twenty-First Century Lens** Nicole Beth Wallenbrock, 2020-02-20 The Franco Algerian War 1954-62 remains a powerful international symbol of Third Worldism and the finality of Empire Through its nuanced analysis of the war's depiction in film *The Franco Algerian War through a Twenty First Century Lens* locates an international reckoning with history that both condemns and exonerates past generations Algerian and French production partnerships such as *Hors la loi* *Outside the Law* Rachid Bouchareb 2010 and *Loubia Hamra Bloody Beans* Narimane Mari 2013 are one of several ways citizens collaborate to unearth a shared history and its legacy Nicole Beth Wallenbrock probes cinematic discourse to shed new light on topics including the media revelation of torture and atomic bomb tests immigration's role in the evolution of the war's meaning and the complex relationship of the intertwined film cultures The first chapter summarizes the Franco Algerian War in 20th century film thus grounding subsequent queries with Algeria's moudjahid or freedom fighter films and the French new wave's perceived disinterest in the conflict This book is an invaluable resource for scholars seeking to understand cinema's role in re-evaluating war and reconstructing international memory

**The Oxford Handbook of Late Colonial Insurgencies and Counter-Insurgencies** Martin Thomas, Gareth Curless, 2023-10-10 The lethality of conflicts between insurgent groups and counter-insurgent security forces has risen markedly since the Second World War just as those of conventional or inter-state wars have declined For several decades conflicts within states rather than between them have been the prevalent form of organised political violence worldwide Recent conflicts in Afghanistan Iraq and Syria have fired interest in colonial experiences of rebellion while current western interventions in sub-Saharan Africa have prompted accusations of militarist humanitarianism Yet despite mounting interest in counter-insurgency and empire comparative investigation of colonial responses to insurrection and civil disorder is sparse Some scholars have written of a golden age of counter-insurgency which began with Britain's declaration of a Malayan Emergency in 1948 and ended with the withdrawal of US ground troops from Vietnam in 1973 It is with this period if not with any presumed golden age that this volume is concerned This Handbook connects ideas about contested decolonization and the insurgencies that inspired it with an analysis of patterns and singularities in the conflicts that precipitated the collapse of overseas empires It attempts a systematic study of the global effects of organized anti-colonial

violence in Asia and Africa The objective is to reconceptualize late colonial violence in the European overseas empires by exploring its distinctive character and the globalizing processes underpinning it

**Algerian Independence and the British Left** Mélanie Torrent, 2024-11-14 Based on archives from governments parties organisations and individuals this book investigates the relationship between the British left and Algerian liberation movements during the Algerian War of Independence 1954-1962 It explores the presence of representatives of the Mouvement national algérien MNA and the Front de libération nationale FLN in London where they actively sought support for peace independence from France and the global end of European domination By surveying their interactions with individuals and groups in the anticolonial left including prominent Labour MPs and Trotskyist groups Asian and African associations and students unions Torrent shows how and why solidarity was interpreted differently across the left and in relation to Britain's own end of empire conflicts Tracing connections across Europe and beyond this book demonstrates how the war influenced conceptions of socialism communism and internationalism in Britain what being European meant and what place the Commonwealth should have in a world where armed struggle and liberation diplomacy disrupted boundaries

The Civilianization of War Andrew Barros, Martin Thomas, 2018-08-09 Distinguishing between civilians and combatants is a central aspect of modern conflicts Yet such distinctions are rarely upheld in practice The Civilianization of War offers new ways of understanding civilians exposure to violence in war Each chapter explores a particular approach to the political legal or cultural distinctions between civilians and combatants during twentieth century and contemporary conflicts The volume as a whole suggests that the distinction between combatants and non combatants is dynamic and oft times unpredictable rather than fixed and reciprocally understood Contributors offer new insights into why civilian targeting has become a strategy for some and how in practice its avoidance can be so difficult to achieve Several discuss distinct population groups that have been particularly exposed to wartime violence including urban populations facing aerial bombing child soldiers captives and victims of sexual violence The book thus offers multiple perspectives on the civil military divide within modern conflicts an issue whose powerful contemporary resonance is all too apparent

**Remnants of the Franco-Algerian Rupture** Mona El Khoury,2020-09-28 At the end of French colonization in Algeria four categories of people held French citizenship or had strong ties with France European settlers Jews mixed race individuals and Harkis The end of the War of Independence exiled most of them from Algeria traumatized them in various ways and transferred many to metropolitan France Remnants of the Franco Algerian Rupture Archiving Postcolonial Minorities examines the legacies of these transnational identities through narratives that dissent from official histories both in France and Algeria This literature takes particular stories of exile and loss and constructs a memory around a Mosaic father figure embodying the native land Algeria Mona El Khoury argues that these filiation narratives create a postcolonial archive a discursive foundation that makes historical minorities visible while disrupting French and Algerian hegemonies El Khoury questions the power of literature to repair history while contending that these literary strategies seek to do justice to the dead Algerian father even as they valorize enduring minority identifications

*The End of Empires and a World Remade* Martin Thomas,2024-03-19 A capacious history of decolonization from the decline of empires to the era of globalization Empires until recently were everywhere They shaped borders stirred conflicts and set the terms of international politics With the collapse of empire came a fundamental reorganization of our world Decolonization unfolded across territories as well as within them Its struggles became internationalized and transnational as much global campaigns of moral disarmament against colonial injustice as local contests of arms In this expansive history Martin Thomas tells the story of decolonization and its intrinsic link to globalization He traces the connections between these two transformative processes the end of formal

empire and the acceleration of global integration market reorganization cultural exchange and migration The End of Empires and a World Remade shows how profoundly decolonization shaped the process of globalization in the wake of empire collapse In the second half of the twentieth century decolonization catalyzed new international coalitions it triggered partitions and wars and it reshaped North South dynamics Globalization promised the decolonized greater access to essential resources to wider networks of influence and to worldwide audiences but its neoliberal variant has reinforced economic inequalities and imperial forms of political and cultural influences In surveying these two codependent histories across the world from Latin America to Asia Thomas explains why the deck was so heavily stacked against newly independent nations Decolonization stands alongside the great world wars as the most transformative event of twentieth century history In The End of Empires and a World Remade Thomas offers a masterful analysis of the greatest process of state making and empire unmaking in modern history

La vengeance de Mehdi Baadi Jacques DISSLER, 2013-01-09 La guerre d'Algérie une guerre qui s'est longtemps refusé de dire son nom demeure trois générations plus tard un sujet hautement politique Le sort réservé aux suppléants qu'ils soient harkis mokhaznis ou policiers ruraux a fait couler beaucoup d'encre Le harki Mehdi Baadi personnage de fiction a été le héros malheureux d'une Algérie feu et sang En dépit des événements il a continué de croire en la France Il l'a rejointe en soixante-deux dans des conditions tragiques connu la vie des camps où il s'est retrouvé entassé avec des milliers de coreligionnaires en attente d'un toit d'un emploi d'un retour la dignité

**The Algerian War in Film Fifty Years Later, 2004-2012** Anne Donadey, 2020-10-07 The Algerian War in Film Fifty Years Later 2004-2012 examines the cultural political and aesthetic significance of narrative films made during the fiftieth anniversary period of the war between 2004 and 2012 This period was a fruitful one in which film became a central medium generating varied representations of the war and Anne Donadey argues that the fiftieth anniversary film production contributed to France's move from a period of the return of the repressed to one of difficult anamnesis Donadey provides a close analysis of twenty narrative films made during this period on both sides of the Mediterranean observing that while some films continue to center on the point of view of only one stakeholding group a number of films open up new opportunities for multicultural French audiences to envision the war through the eyes of Algerian characters on screen and other films bring memories from various groups together in thoughtful articulations that represent the complexity of the situation Donadey takes this analysis a step further to analyze what types of

gendered representations emerge in these films given the important participation of Algerian women in the revolutionary war. Scholars of Francophone studies, film, women's studies, and history will find this book particularly useful.

*Decolonization and Conflict* Martin Thomas, Gareth Curless, 2017-06-15

Insurgency-based irregular warfare typifies armed conflict in the post-Cold War age. For some years now, western and other governments have struggled to contend with ideologically driven guerrilla movements, religiously inspired militias, and systematic targeting of civilian populations. Numerous conflicts of this type are rooted in experiences of empire breakdown. Yet few multi-empire studies of decolonisation's violence exist.

*Decolonization and Conflict* brings together expertise on a variety of different cases to offer new perspectives on the colonial conflicts that engulfed Europe's empires after 1945. The contributors analyse multiple forms of colonial counter-insurgency, from the military engagement of anti-colonial movements to the forced removal of civilian populations and the application of new doctrines of psychological warfare.

Contributors to the collection also show how insurgencies, their propaganda, and methods of action were inherently transnational and interconnected. The resulting study is a vital contribution to our understanding of contested decolonization. It emphasises the global connections at work and reveals the contemporary resonances of both anti-colonial insurgencies and the means devised to counter them. It is essential reading for students and scholars of empire, decolonization, and asymmetric warfare.
