

Engineer Biography Example

Since she entered the industry of biomedical engineering, Nancy Frank has been pushing forth new and innovative ideas. With over ten years of experience at GeneReach, Nancy has been a part of many important breakthroughs in medical science. She specializes in transplant material engineering, and possesses a strong medical background for understanding pathogenesis and treatments.

Nancy graduated *summa cum laude* from Freetown University in South Carolina with a Bachelor of Science in Biology. She then continued to earn her MD/ PhD from Stanford University in Biomedical Engineering, which she graduated with honors. Her thesis project, published in *Nature*, described a new method of subverting the immune rejection typical of allografted skin samples. The technology is currently in use at several hospitals across the country, where it has become adopted as standard treatment for burn victims.

Other notable projects from Nancy include her work in vaccine delivery systems. In the past decade, Nancy has developed a nanopore storage and delivery system that can transport calculated and highly accurate amounts of a drug directly to the bloodstream, bypassing the need for injections and follow-ups. The procedure, currently in phase 2 testing, could prove greatly useful in the pharmaceutical industry. She is also currently working on an internal targeting technology, which serves as an individualized protein "mop" for unwanted antibodies and target molecules. The project currently has a \$3 million NIH and corporate backing, with an estimated \$2 million annually in trial funding.

Nancy is also highly involved with the Detroit City chapter of Doctors In The City, an organization which serves to bring inner-city youth in close proximity to medical professionals. She devotes at least two hours of her week to lecturing and developing various involvement activities to encourage a love of science in underserved populations. Nancy is a member of the Panthers Alumni Group as well as the National Alliance to End Abuse.
