

SPANISH LANGUAGE PROFICIENCY TEST STUDY GUIDE

General Test Characteristics

1. Each selected module is to be completed by all students. The expectation is that students who have had one or two years of high school Spanish will answer fewer questions correctly than students who have had three or more years of high school Spanish.
2. Each module is entirely in Spanish (except for the instructions) and consists of multiple-choice questions, most with four choices each.
3. The test is scored as the number of correct answers, with no penalty for guessing. Each item has only one correct answer.
4. Both the Grammar & Reading Comprehension Test and the Listening Comprehension Test are designed as a test of skill, not speed. Ample time is allowed to answer questions. Sixty (60) minutes are allowed to complete the Grammar and Reading Comprehension Test. Approximately thirty (30) minutes are allowed for the Listening Comprehension Test.

NOTE: There is also a thirty (30) minute speaking section.

Scoring

Any standard answer sheet with at least four answer options, labeled "A", "B", "C", "D" may be used. Each testing institution will be provided with an Examiner's Handbook which gives the answers so that the tests may be score locally.

Test Reliability

All total test reliabilities (i.e. Grammar & Reading Comprehension test used in conjunction with the Listening Comprehension test) are above .90. All sub-score test reliabilities (if tests are used separately) are above .85 and most are .90 or greater. For further information regarding test reliability, please see the Technical Manual (sold separately).
