Festival Cities John R. Gold, Margaret M. Gold, 2020-12-04 Festivals have always been part of city life but their relationship with their host cities has continually changed With the rise of industrialization they were largely considered peripheral to the course of urban affairs Now they have become central to new ways of thinking about the challenges of economic and social change as well as repositioning cities within competitive global networks In this timely and thought provoking book John and Margaret Gold provide a reflective and evidence based historical survey of the processes and actors involved charting the ways that regular festivals have now become embedded in urban life and city planning Beginning with David Garrick's rain drenched Shakespearean Jubilee and ending with Sydney's flamboyant Mardi Gras celebrations it encompasses the emergence and consolidation of city festivals After a contextual historical survey that stretches from Antiquity to the late nineteenth century there are detailed case studies of pioneering European arts festivals in their urban

context Venice's Biennale the Salzburg Festival the Cannes Film Festival and Edinburgh's International Festival Ensuing chapters deal with the worldwide proliferation of arts festivals after 1950 and with the ever increasing diversifycation of carnival celebrations particularly through the actions of groups seeking to assert their identity. The conclusion draws together the book s key themes and sketches the future prospects for festival cities Lavishly illustrated and copiously researched this book is essential reading not just for urban geographers social historians and planners but also for anyone interested in contemporary festival and events tourism urban events strategy urban regeneration regeneration or simply building a fuller understanding of the relationship between culture planning and the city **Traditional and Cosmic Gods** in Later Plato and the Early Academy Vilius Bartninkas, 2023-04-13 This book sheds new light on Plato's cosmology in relation to Greek religion by examining the contested distinction between the traditional and cosmic gods A close reading of the later dialogues shows that the two families of gods are routinely deployed to organise and structure Plato's accounts of the origins of the universe and of humanity and its social institutions and to illuminate the moral and political ideals of philosophical utopias Vilius Bartninkas argues that the presence of the two kinds of gods creates a dynamic yet productive tension in Plato's thinking which is unmistakable and which is not resolved until the works of his students Thus the book closes by exploring how the cosmological and religious ideas of Plato's later dialogues resurfaced in the Early Academy and how the debates initiated there ultimately led to the collapse of this theological distinction Canadian Fashion Economies Mark Joseph O'Connell, 2025-09-04 A vital re examination of Canadian cultural and commercial history told through key fashion objects from First Nations colonial settlers and contemporary Canadian culture Traditional narratives of fashion tend to ignore sophisticated pre colonial networks First Nation innovations and techniques and their contributions to colonial dress From exquisite Chilkat weavings to the iconic Hudson's Bay Company blanket coat by way of ribbon skirts guilts and a beaver fur top hat this rich study uses Canadian fashion objects as a research tool to illuminate neglected areas in North American fashion history Using vivid object based research O Connell maps out pre colonial economic networks spanning the entire continent global colonial textile and fur trades and the material culture of French and English migrant populations in the New World and equips readers with a framework for more nuanced and inclusive histories of Canadian culture and commerce Unexpected overlooked stories emerge as central to Canada's fashion history from hybrid fashion cultures to re used textiles in settler communities and O Connell highlights contemporary Canadian artists and designers who point to new possibilities to reclaim and preserve this cultural heritage
